I do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of California, and I will faithfully discharge the duties of the office of Speaker of the Assembly to the best of my ability.

ADDRESS OF SPEAKER.

Upon assuming his duties the Speaker addressed the Assembly as follows:

Fellow Members of the Assembly. It is quite unnecessary for me to say that I appreciate to the fullest extent the honor in having been selected by you as your presiding officer during the session which has just opened. I presume that it is the first time in the history of this State that a candidate for the office of Speaker received the entire vote of both the Republican and Democratic parties, and for that reason I appreciate the honor all the more.

Possibly you may not know collectively that this honor has come to me without a promise on my part, either directly or indirectly, as to what I would or would not do, either in appointing the committees of this body or as to any other matter or subject which will come before this Assembly. Individually, however, you do know, for there is not a member present who can say that any promise has been made to him by me concerning any matter which will come before this Assembly.

The position having come to me in the manner it has, and I will say that it could not have been accepted by me under any different conditions, carries with it the confidence of this body, and I shall endeavor to see that this confidence has not been misplaced.

It shall be my purpose at all times to be fair and courteous to all of you, and I especially ask your cooperation and assistance in aiding me to properly perform my duty as the presiding officer of this body.

To the Republican members of this Assembly I wish to say just a word concerning legislation. We were elected upon a party platform, formed and constructed in a different manner from any which had previously been adopted. It was formed by delegates selected by direct votes of the members of the party, and we should for that reason see that the provisions of that platform are carried out.

There was no uncertainty as to the issues of the last campaign. The people indicated by their votes the kind of a government they want, and we must see that they are not disappointed. Opportunity has presented itself to us, and let us embrace it and give to the people of this State the laws which they desire and which they deserve. Let us not be hasty in any matters of legislation, but let us act with deliberation and care, keeping in mind always the welfare of the people of this great State, to the end that everything done shall be done with a view of bettering conditions.

I again thank you, gentlemen, for the honor which you have granted me.

In forming a Committee of the Whole House, a chairman, to be named by the Speaker, shall preside. Bills committed to a Committee of the Whole House shall, in Committee of the Whole, be read by sections. All amendments shall be noted and reported to the Assembly by the chairman. After being reported to the Assembly, the bill shall again be subject to amendment before a vote on the report is taken.

A Standing Committee.

A Select Committee.

38. Calling Members to Order When Transgressing Rules

If any member, in speaking or otherwise, transgresses the rules of the House, the Speaker shall, or any member may, call to order, in which case the member so called to order shall immediately sit down, unless permitted to explain; and if called to order by a member, such member shall immediately state the point of order. If the point of order be sustained by the Chair, the member shall not be allowed to proceed; but if it be not sustained, then he shall be permitted to go on. Every such decision from the Chair shall be subject to an appeal to the House, but no discussion of a question of order shall be allowed, unless an appeal be taken from the decision of the Chair.

39. Speaker to Decide Who is Entitled to the Floor.

When two or more members shall rise at once, the Speaker shall name the member who is first to speak.

40. Order in Speaking to Questions.

Every member, when he speaks, shall, standing in his place, address "Mr Speaker," and when he has finished he shall sit down. No member shall speak more than twice during the consideration of any one question, of whatever nature, on the same day and at the same stage of proceedings, without leave being granted, except the author of a bill or resolution, or mover of a question, who shall have the right to close the debate. No member shall be allowed to speak more than thirty (30) minutes upon any question, except by leave of the House.

41. Called to Order for Offensive Words in Debate

If any member be called to order for offensive words spoken in debate, the person calling him to order shall report the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to censure of the House, for language used in debate, if any member has spoken or other business has intervened after the words spoken and before exception to them shall have been taken.

A motion to adjourn shall always be in order, except during roll call. The Clerk shall enter on the Journal the name of any member moving an adjournment, also the hour at which the motion was made.

When a motion is made and seconded to adjourn, it shall be in order for the Speaker, before putting the question, to permit any member to state any fact to the

House relating to the condition of the business of the House which would seem to render it improper to adjourn at that time. Such statement, however, shall not be debatable, and such statement or statements shall not, in any case, occupy more than two minutes.

Concurrent resolutions for adjournment *sine die* shall in all cases, whether originating in the House or coming from the Senate, be referred to the Committee on Ways and Means. That committee shall report upon any such concurrent resolution not later than the next legislative day, and with regard to the status of the general appropriation bill and tax levy.

45. *Precedence of Motions During Debate.*

When a question is under debate, or before the House, no motion shall be received but: To adjourn; to lay on the table; for the previous question; to postpone to a day certain, to commit or amend, to postpone indefinitely; which several motions shall have precedence in the order in which they are named, but the first three shall be decided without debate; and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided, shall again be allowed on the same day and at the same stage of the proceedings. A motion to strike out the enacting clause of a bill shall have preference over a motion to amend, and, if carried, shall be considered equivalent to its rejection. A dilatory motion shall not be considered intervening business within the meaning of parliamentary usage.

46. *Previous Question.*

The previous question shall be in this form: "Shall the main question be now put?" And its effect, when sustained by a majority of the members present, shall be to put an end to all debate and bring the House to a vote on the question or questions before it.

47. *Questions of Order After Previous Question is Ordered.*

All incidental questions of order arising after a motion is made for the previous question, and pending such motion or previous question, shall be decided (whether on appeal or otherwise) without debate; *provided*, that after the previous question shall have been ordered, ten minutes shall be allowed for explanation of the matters covered by the previous question, of which five minutes shall be given to the member moving the previous question, and five minutes to those opposed thereto.

The previous question shall only be put when demanded by three members.

49. *Question Indefinitely Postponed.*

When a question is postponed indefinitely, the same shall not again be introduced during the session.

50. *Division of Questions.*

Any member may call for a division of the question, which shall be divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the House. A motion to strike out being lost, shall preclude neither a motion to add to nor a motion to strike out and insert.

51. *Substitute.*

A substitute shall be deemed and held to be an amendment, and be treated in all respects as such.

52. *Subjects Different from the One Under Consideration.*

No motion or proposition on a subject different from that under consideration shall be admitted as an amendment.

In filling up blanks the least sum and shortest time shall be first put.

57. *Priority of Business.*

All questions relating to the priority of business shall be decided without debate.

58. Reading of Papers.

When the reading of a paper is called for, except petitions, and the same is objected to by a member, it shall be determined by a vote of the House, without debate.

59. Notice of Reconsideration.

On the day succeeding that on which a final vote on any bill or resolution has been taken said vote may be reconsidered on the motion of any member; *provided*, notice of intention to move such a reconsideration shall have been given on the day on which such final vote was taken, by a member voting with the majority; and it shall not be in order for any member to move a reconsideration on the day on which such final vote was taken. Said motion of reconsideration shall have precedence over every other motion, except a motion to adjourn. No notice of reconsideration shall be in order on the day preceding the last day of the session.

No motion to reconsider shall be adopted, except upon a roll call, and it shall require forty-one votes to adopt the motion.

60. Elections by House.

In all cases of election by the House the vote shall be taken *viva voce*.

61. Calling Ayes and Noes.

The ayes and noes shall be taken on the final passage of all bills, and when called for by three members on other questions, and every member within the bar of the House, when his name is called, shall (unless for special reasons he be excused) declare openly, and without debate, his vote. In taking the ayes and noes, and upon call of the House, the names of the members shall be taken alphabetically, and the Clerk shall enter on the Journal the names of those demanding the ayes and noes.

62. Members at Clerk's Desk.

No member or other person shall remain by the Clerk's table while the ayes and noes are being called or while the votes are being counted.

63. Voting on Questions When Interested.

No person shall vote on any question in the result of which he is personally interested or involved.

64. Division and Count of House.

Upon a division and count of the House on any question, no person without the bar shall be counted.

No member shall be allowed to explain his vote or discuss the question while the ayes and noes are being called, and no member shall be allowed to change his vote after the vote is announced from the chair.

66. Call of the House.

Upon a call of the House the names of the members shall be called over by the Clerk, and the absentees noted, after which the names of the absentees shall again be called over. The door shall then be shut, and those for whom no excuse or insufficient excuses are made, may, by order of those present, be taken into custody, as they appear, or may be sent for and taken into custody by the Sergeant-at-Arms wherever to be found, or by special messenger, to be appointed for that purpose. In the absence of a quorum, a majority of the members present may order a call of the House and compel the attendance of absentees in the manner above provided. No recess can be taken during a call of the House.

67. Suspending and Changing Rules.

No standing rule or order of the House shall be rescinded or changed without a vote of two thirds, and one day's notice being given of the motion therefor; *provided*, that the Committee on Rules and Regulations may at any time, except during a roll call, report a temporary rule providing for the consideration of any bill on the files of the House belonging to either of the following classes:

1. Bills affecting the State government, its revenue, its various departments or commissions, or appropriations therefor.
 2. Bills affecting county and township governments, or roads and highways.
 3. Bill's affecting town, city, city and county governments, or the municipal affairs of the same.
 4. Bills amending election or primary election laws.
 5. Constitutional amendments.
 6. Bills amending or repealing the Codes or sections thereof.
- Such temporary rule shall provide when a bill so selected shall be taken up for consideration, and the time when final vote shall be taken thereon and pending amendments thereto, if there be any.

It shall always be in order to call up for consideration such report. The same shall be subject to amendment by the House.

On the adoption of such temporary rule by the House by a two-thirds vote thereof, if the bill be on third reading, and by a majority vote of the members elected to

the House, if otherwise, such bill shall thereupon be made the special order for the time fixed therein.

A rule of order may be suspended temporarily by a vote of two thirds of the members present, except that portion of Rule 6 relating to third reading of bills. A motion or resolution proposing to increase or diminish a standing committee shall not be adopted until the same has been referred to the Committee on Rules and Regulations.

The Committee on Rules and Regulations may also, at any time, report a temporary rule or regulation for the consideration of the business on the file, having regard to the condition of the business of the House. When such temporary rule or regulation shall have been adopted by the House, it shall have the effect, for the time being, of a standing rule, and shall be enforced by the Speaker.

68. *Members Absenting Themselves*

No member shall absent himself from the service of the House without the leave of the House, except in case of sickness, and if any member or officer of the House absent himself without leave, his *per diem* shall not be allowed him; but no member shall obtain leave of absence, or be excused, without a vote of two thirds of the House.

69. *Persons Admitted to Floor.*

No persons, except Senators, State officers, Governors and ex-Governors of States, Members of Congress, Judges of the Supreme or Superior Courts, members of the press when accredited by their respective journals, ladies when specially invited by a member of the House, shall be admitted within the Assembly Chamber, except in the galleries, during the session of the House; but a majority may have the floor of the House within the bar cleared of any or all such persons. The Speaker is charged with the enforcement of this rule.

70. *Smoking in Hall.*

No smoking shall be allowed within the Assembly Chamber during the session of the House.

71. *Parliamentary Rules.*

The Assembly Room shall not be used for any public or private business other than legislative, except by consent of a majority of the House.

73. *Fees for Witnesses*

Witnesses summoned to appear before the House or any of its committees shall be paid as follows. No mileage shall be paid except where the witness has actually traveled for the purpose of giving testimony.

74. *Protests of Members.*

All motions for leave to introduce bills after the fiftieth day shall be sent to the desk in writing, under the order of "Introduction of Bills," and at no other time. The motion shall give the title of the bill, and shall be accompanied by the bill. The bill shall thereupon be referred to the Committee on Introduction of Bills.

That committee shall examine bills referred to it with particular reference to the question as to whether there is already any bill in either house of the same character

which might be amended to effect the result sought, and generally as to the advisability of introducing the measure.

The committee shall report upon each bill so referred to it on the same legislative day. The report shall be made at the conclusion of the consideration of the Senate Special File.

The committee may, in its discretion, incorporate more than one bill in the resolution to grant leave to introduce, incorporating in the resolution the title of each bill in full, and the roll shall be called upon the adoption of the resolution without debate.

If a division of the question is demanded upon the introduction of any particular bill, the division shall be allowed, and the roll called separately upon the bill.

78. Form for Introduction of Bills

When a bill is introduced, and when printed, amending an existing law, the new matter shall be underscored, and portions of the law proposed to be omitted shall be included in brackets; *provided, however*, that where the subject consists of an entirely new section, the words thereof need not be underscored, and that when any bill introduced repeals an existing law in whole, the matter repealed need not be put in the bill.

All bills reported favorably or for consideration, if reported with amendments, shall be immediately reprinted: the new matter underscored and the parts of the law proposed to be omitted included in brackets.

79. Leave of Absence of Committee Visiting Public Institutions.

When leave of absence shall be granted any committee, special or standing, to visit public buildings or institutions, or for any other purpose, such leave shall be granted only by a two-thirds vote taken *in a voce*, and no expenses or mileage of attachés shall be allowed. No member of the Assembly shall accompany a committee as a substitute for a member thereof who declines to accompany the committee, without permission for such substitution being obtained from the Speaker. Application for a leave of absence for a committee shall be made to the Assembly by the chairman thereof, by resolution, which shall give the name of the institution or institutions to be visited and briefly recite the occasion and necessity for visiting the same, together with the number of committeemen desiring leave. Such resolution shall immediately, and without debate, be referred to the Committee on Rules and Regulations, with instructions to report upon the next legislative day on the same, and whether the leave of absence can be granted without interfering with the business of the Assembly.

GOVERNOR'S MESSAGE.

The following message from the Governor was taken up and read:

SECOND BIENNIAL MESSAGE OF GOVERNOR JAMES N. GILLET.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, January 2, 1911.

To the Senate and Assembly:

Under the provisions of Section 10 of Article V of the Constitution of this State, it becomes my official duty to communicate by message to you the condition of the State, and recommend such matters as are deemed expedient.

We must all necessarily look to the incoming Governor for the policy of the next four years, and predicting for him that course which in his judgment will be for the best interest of our State, it is not my wish or intention to hamper my successor by recommendations as to new legislation. I will attempt, therefore, to confine whatever recommendations I make herein to aid in carrying out to a successful conclusion those matters already provided for by law which I deem highly important at this time. I desire also to make certain suggestions which past experience has indicated may help to make the term of my successor more certain of success and redound to the general welfare of the State, and to set forth such recommendations as have been brought directly to my attention by the several officers, departments, and commissions which go to make up our state government, through their annual and biennial reports made to me since the meeting of the last Legislature.

It is with pardonable pride, I hope, that I may now, at the end of my administration, allude briefly to the more important acts which have become laws during my term of office. Since my inauguration there have been enacted a number of very important laws, among which I may mention the "State Highway Act," which, as a far-reaching measure for the State's future general welfare and prosperity, has never been excelled by any law heretofore passed; a modern and comprehensive "Banking Law," which is second to none, in my opinion, to that of any of our sister states, a "Pure Food Law," under which our State Board of Health has done much to protect the health of our people, and prevent frauds in our foodstuffs, a "Railroad Rate Law," a "Reciprocal Demurrage Law," an "Employers' Liability Act," an "Anti-Trust Law," an "Anti-Racetrack Gambling Law," an "Act creating the Department of Engineering," and a "Direct Primary Election Law."

Much has also been accomplished during the last two years by our state government looking to the ultimate making of the Sacramento and San Joaquin rivers great highways of trade and commerce, and the reclamation of thousands of acres of most fertile lands lying within their valleys. Steps also have been taken which are certain to make San Francisco's harbor one of the very best and cheapest in the entire world, and to insure for all time its ability to take care of the great commerce which will inevitably come to it. And, with the improvements that are contemplated for the beautiful harbor of San Diego, which have been made possible by a bond proposition submitted by the thirty-eighth session of the Legislature and adopted at

the last general state election, California will, with the improved San Pedro and other harbors, be well able to take care of the fleets of the world long before the time for holding the Panama-Pacific Exposition in 1915 at San Francisco.

FINANCIAL AFFAIRS.

The State is in a splendid financial condition. At the end of the last fiscal year there remained in the treasury a balance of \$7,201,219.82. The balance over all obligations incurred or to accrue is in excess of \$2,000,000 00, the largest balance by more than \$1,000,000 00 ever left in the treasury at the end of any previous administration. This condition of most satisfactory solvency is especially pleasing when the tax rates of this administration are compared with previous years.

The tax rates under the administration of Governor Gage were as follows:

1899	-----	.601
1900	-----	.498
1901	-----	.48
1902	-----	.382

Under the administration of Governor Pardee the rates were as follows:

1903	-----	.561
1904	-----	.535
1905	-----	.49
1906	-----	.476

During the past four years the rates were:

1907	-----	.445
1908	-----	.40
1909	-----	.64
1910	-----	.353

A more ready comparison can be made by an inspection of the average rates on each \$100.00 of assessed valuation of the last five administrations:

Markham's administration	-----	48 7 cents
Budd's administration	-----	52 8 cents
Gage's administration	-----	49 0 cents
Pardee's administration	-----	51.5 cents
Gillett's administration	-----	39.0 cents

STATE HIGHWAY ACT.

At the last session of the Legislature I prepared and submitted to that body a measure providing for the issuance of \$18,000,000 00 of bonds, for the acquisition, construction, and maintenance of a system of state highways. This bill was prepared with great care, and was drafted with an idea that it should serve as a model for future bond issues in this State.

I am greatly indebted to the Attorney General of this State for his services in putting this bill in proper legal form, and also to the State Treasurer for his most excellent advice and suggestions relating to the method for the issuance and sale of the bonds provided for in the Act.

As originally introduced, the bill provided that all public highways lying within the right of way of such state highway should become a part thereof without compensation being made therefor.

Objection to this broad provision was made by the representatives of certain counties where highways had been constructed under bond issues, and the argument was advanced that these highways recently constructed were of the same class and character of the proposed state highway, and that the counties had become indebted for the same, and that it would be unfair to compel them to transfer such highways to the State free of cost, and they should, therefore, receive some compensation therefor.

I concurred in this view, and the original bill was amended in such a manner as to permit the State of California to compensate the counties for all highways permanently improved and constructed under bond issues within three years prior to the adoption of this Act, and which came up to the standard required of a state highway.

I wish to call particular attention to this matter, as it has repeatedly been claimed that there was no provision in this Act providing for compensating counties which had permanently improved highways lying within the right of way of the state highway. There is more or less excuse for this error because of a peculiar mistake made in punctuation in the printing of the statute.

As originally passed by the Legislature and approved by me, the bill provided that the only highways which would be taken without compensation were those not permanently improved under county or road district bond issues. Under the erroneous punctuation in the printed statutes this provision does not appear. I call attention to this matter so that those interpreting this law may not be misled, but will refer to the original statute as passed and approved by me and now in the office of the Secretary of State.

Before leaving this subject I wish to add that the bond issue as submitted to the people was correctly published, and conforms entirely with the statute as passed by the Legislature and approved by the Governor.

An additional objection made to this bill is that there is no provision made therein for the maintenance of the highways after construction. The Act does provide specifically, in the last sentence of Section 8 thereof, "that all highways constructed or acquired under the provisions of this Act shall be permanently maintained and controlled by the State of California."

As I was largely instrumental in the submission of this Act to the people, I certainly take the deepest interest in the proper construction of these highways and their maintenance thereafter by the State. Inasmuch as there must be additional legislation to provide a working system under which these roads may be constructed and maintained, I feel that it will not be deemed amiss for me to make some suggestions relative thereto.

I have fully realized during my official term that the Governor is held responsible for the successful performance of all public affairs, even though the execution of such affairs may be in the hands of a commission. Often his only connection therewith relates back to the appointment of such commission. In many instances the Governor loses control over such commission after its appointment. He may give his advice, but the advice is not necessarily followed. In many instances the advice is neither sought nor desired. At times the work of the commission may be in direct conflict with the wishes of the Governor, and yet because of his connection with the commission through his power of appointment he is held responsible for their every act.

In the preparation of this bill I sought to place the responsibility of carrying out its provisions directly upon the Governor, by placing the work under the control of the Department of Engineering, of which the Governor is the head, and all the members of which receive appointments directly from him. If the work is not done in accord with his wishes he can correct it. He is the one responsible party for the performance of this work, and is given supreme power to see that it is properly and faithfully performed.

In an undertaking of this magnitude I was opposed to having it referred to a commission which might be out of harmony with the Governor, and which could do the work without consultation with him or perhaps in defiance of his wishes.

The successful performance of this great project is, therefore, entirely in the hands of the Governor, and he is the one primarily responsible for its successful completion, and I believe that this thought should be kept in mind in framing all future legislation affecting the construction of said highways.

A great mistake can be made in placing this work in the hands of incompetent and unskilled men. To secure good results the most competent men to be found, with large experience and superior past record, should be secured, and the salaries paid should be sufficient to attract such men. Therefore, the Department of Engineering should be granted the power and authority to reach out to any portion of the United States or Europe to find the men best qualified, from technical knowledge and experience, to carry on the practical work. The work of building this state highway should be most carefully planned and considered, so that when completed it will compare favorably with the best roads of Europe or of this country.

The employees of this department should not be appointed for a definite fixed term, but should receive their appointment directly from the Governor, holding office at his pleasure, removable at his will, and subject at all times to his orders. So long as he remains the party responsible for the successful construction of these roads, he should be given the fullest power to control the work. He should be given absolute power of removal, and should not hesitate to use such power upon the slightest appearance of neglect, incompetency, or wrongdoing.

When vested with these powers, the people can truthfully and with propriety hold him responsible for its success. Anything short of this full and ample authority would be to the detriment of the work and should relieve him from this responsibility. I would therefore suggest that you be liberal in your laws, investing the Governor with most ample powers, and giving to him the absolute discretion in the appointment of subordinates and control over their actions.

Every contract let should receive the approval of the Department of Engineering. These contracts should be submitted to the Governor and should be under his personal supervision and control, acting through this department.

On account of the diversity of soil and the differing conditions throughout the State it is impossible to prescribe any one kind of road to be constructed, and the roads should be built in the manner most suitable to the conditions surrounding them. What would be suitable for one portion of the State might not be sufficient or might be more than would be necessary for another portion of the State. These things can only be determined by actual experience and knowledge surrounding road work and road construction.

The highways to be selected and improved should be chosen with great care, and by those who have no direct interest in such choice other than securing the best route. And when so chosen the route should be prescribed in the Act, and should be so laid out and constructed or acquired as to constitute a continuous and connected state highway system running north and south through the State, traversing

the Sacramento and San Joaquin valleys and along the Pacific coast by the most direct and practical routes, connecting the county seats of the several counties through which it passes and joining the centers of population, together with such branch roads as may be necessary to connect therewith the several county seats lying east and west of such state highway.

The people of the State of California, by their votes and confidence in the success of this project, are entitled to receive the very best service and results for their expenditure. This work can not be left to take care of itself, but must be watched with the utmost diligence in order to secure the best results. If the expenditure of this money is not wisely made and the best results obtained, the good roads movement in California will suffer a severe setback. Failure can only come from incompetency and inattention on the part of those in charge. It would be a misfortune for this vast sum of money, or any part of it, to be wasted. The fund should be used to the very best advantage in order to carry on this work to a completion, giving to the most remote county seats the benefit of this highway, connecting them with the centers of trade and markets for their products.

The people's confidence must not be abused, and it is due to them that the members of the Legislature should vest in the Governor the most ample and complete authority to carry on this work to a successful termination, enabling him to prevent neglect, incompetence, graft, or official corruption.

Before concluding this subject I desire to call your attention to the matter of constructing a road from Jackson, the county seat of Amador County, to Bridgeport, the county seat of Mono County, and the improvement and reconstruction where necessary of the road from Bridgeport southward through Mono County, connecting with the eastern terminus of the Tioga Pass road, recently constructed by the State, thence into Inyo County through Bishop, Big Pine, Independence, the county seat, and Lone Pine to Mojave, there to connect with the road to Bakersfield, the county seat of Kern County, such road to be made in accordance with the most approved principles of scientific highway construction adapted to all classes of traffic and particularly to that of tourists with motor cars.

This road is not specifically provided for under the provisions of the Highway Act, except so far as the same is included under the general provision of connecting outlying county seats with the main state highway. The importance of this road can not be overestimated, as it will open up one of the most fertile portions of this great State, with abundant promise of immense development.

A model highway along the route suggested would quickly acquire an international fame and form a scenic thoroughfare unsurpassed, if not unequalled, by any other in the world, and it would skirt for many miles the beautiful Sierras, and would penetrate into the very heart of this magnificent range of mountains. Such a highway would annually attract to this State thousands of tourists.

STATE HOSPITALS FOR THE INSANE.

The population of our state hospitals for the insane is steadily increasing. During the last biennial period ending June 30, 1910, there were received into our state hospitals 3,531 patients, as compared with 3,018 during the previous two years, and the total population of the hospitals at the end of the last fiscal year was 7,136. But, while it is true that the number of insane in our state hospitals has been increasing quite rapidly for years past, yet we are fortunate in the fact that the increase has not kept pace with the increase in our state population.

The Government census of 1900 shows that California had a population that year of 1,485,053. The insane in our hospitals at that time was 5,276, or one insane person to every 281 of the general population. The census of 1910 gives us a total population of 2,377,549, and our hospital population being 7,136, we thus have one insane person to every 333 of the State's population. With an increase of 60 per cent in population for the past ten years, there has been an increase during the same period of but 35 per cent in the insane under state care.

TREATMENT OF PATIENTS

During the past two years considerable advance has been made in our state hospitals for the better care and curative treatment of the patients. Four of our hospitals have opened receiving and treatment buildings fully equipped with apparatus for hydrotherapeutic treatment, and having skilled nurses in attendance. The reports of the several medical superintendents show that markedly successful results have been obtained from the adoption of these modern methods for the treatment of the insane.

The percentage of complete recoveries for the biennial period, taking the entire hospital system of our State, has reached 35 per cent.

PERMANENT IMPROVEMENTS AND BUILDINGS.

Much building work and permanent improvements of a general nature have been completed in the last two years. Among the improvements completed or practically so, and including ten buildings at Agnews, are twenty-one buildings for patients' use. While the expenditure has been large it has been necessary, and the result has been increased comfort for patients, increased capacity, and an enlargement and betterment of the facilities for their successful treatment.

APPROPRIATIONS.

While the State by liberal appropriations in the past two years has largely increased the capacity of our hospitals, the work of enlargement must still continue, for we have to make provision to take care of a yearly increase of 200 or more patients.

COLLECTION OF HOSPITAL ACCOUNTS.

Somewhat over three years ago the State Lunacy Commission adopted a system for the collection of money due the several state hospitals by reason of monthly board accounts of pay patients. It is gratifying to note that under the supervision of the secretary of the Commission, who is virtually the author of the system, the State has received thereby on an average of over \$3,000 a month more money than ever before in its history. Hospital collections for the last fiscal year reached the sum of \$158,346.03. Before the adoption of the present system the highest annual collection was \$106,541.98.

DEPORTATION OF ALIENS.

During the past fifteen months, since this work has been assumed by it, the State Lunacy Commission has actively and successfully carried forward a plan for the general deportation of aliens who have been committed to our asylums. The commission has induced the United States Government to deport sixty-four patients, while friends and relatives have sent home twenty-six more. This without any cost to the State. And, through the assistance of the Japanese Consul at San Francisco, there have been returned to Japan thirty-one Japanese patients.

VOLUNTARY COMMITMENTS AND CARE OF INEBRIATES.

I believe that some method looking to the more prompt treatment of mental cases in the early stages should be adopted, and with this in view I recommend that the lunacy law be amended so as to permit of voluntary admissions to state hospitals upon personal applications, in addition of course to our present method by commitment after a judicial investigation in open court. The commitment of mental cases to state hospitals is unavoidably delayed by the legal proceedings necessary to bring about the lawful entrance into a state hospital. This objection can be overcome when desirable by voluntary admissions. Also, with voluntary admissions on direct written application from the patient, the stigma of being legally pronounced insane will be avoided, while the danger of illegal detention can be obviated by providing that a voluntary patient must be discharged upon his written demand. It is not believed that more than a small percentage of admissions will be voluntary, but it affords a way of providing for the advantages of an early treatment in certain classes of cases. Many of the Eastern States have a similar plan, and I believe our State could adopt it with good results.

I believe it would also be well to amend the lunacy law to permit the commitment of inebriates and drug habitues for such definite periods of time as will permit of the necessary treatment. Under the law as it now exists we can not hold these cases of temporary insane long enough to obtain radical benefit. The result is that a great majority of this class are discharged only to be recommitted in a comparatively short space of time, and some of them are committed even the third and fourth time.

GENERAL SUPERINTENDENT OF STATE HOSPITALS.

Finally, I wish to say, before concluding the subject of the care of our state insane, that in my opinion California is very fortunate in having at the head of its hospitals, Mr. F. W. Hatch. For over thirteen years Dr. Hatch, as the General Superintendent of State Hospitals, has been in practical charge of our state hospital system, and I believe that no state officer has worked more conscientiously and efficiently than he, and to him more than to any other person can we credit the high standard to which our state hospitals for the insane have been brought.

STATE BOARD OF HARBOR COMMISSIONERS

It is especially pleasing to me to again direct your attention to the splendid work done by the present State Board of Harbor Commissioners in improving the water front of San Francisco.

In my campaign for Governor I felt and stated that the State was entitled to receive the services of the best men obtainable for appointment as members of this board. I was careful to select men of large administrative experience and fully capable of carrying on the work necessary to be done with ability and to complete success. Under their splendid administration thousands of feet of new seawall and bulkhead wharves have been constructed; the trackage of the belt railroad increased more than 10,000 feet; seawall lots having a value of over \$1,000,000 created; and large additions made to the street area. These seawall lots have been leased as fast as acquired at a good rate of interest upon their respective valuations, and a contract has been entered into which will when completed add

three more seawall lots with a valuation of about \$700,000. The total property thus acquired will yield an income almost equal to the interest rate of the bond issue under which such work was done.

The income from the docks when completed under such bond issue, will repay the principal long before its maturity. The docks constructed are of the best and most durable and convenient type. The pier and bulkhead wharves offer about five miles of berth space at the present time. The complete development of the water front from Taylor street to the San Mateo line would give a berth space of about forty miles, exclusive of space in Channel street, in Central or India Basin, and Islais Creek. The state properties along the water front of San Francisco are wholly self-supporting, the expenses being borne by those who use the wharves, seawall lots, and other state property. The addition of seawall lots as the seawall is increased, and the construction of piers of a similar and durable character to those now being built, will ultimately permit the abolishment of dockage and toll charges; and when this is accomplished San Francisco will have the cheapest and best harbor in the world. The prospective rentals alone will be more than sufficient to pay all the expenses of administration, maintenance, and ordinary repairs. This is the goal for which we have been striving, and I urgently recommend a continuance of the policies of the present board to secure such results.

PRISONS AND REFORMATORIES.

During the past four years our prison conditions have continually improved. By the erection of new buildings now under way and practically completed the congestion existing will disappear. Order and discipline prevail in both prisons, and they are being most economically and carefully managed. The completion of the new buildings will allow a better separation of the prisoners, and will permit to a certain extent a classification and segregation of them.

The new cell building in San Quentin will give accommodation for about 800 prisoners, and will be one of the most modern buildings of this class.

The work at Folsom is going ahead rapidly, and ample and complete accommodations for all of the prisoners will soon be available for use.

PAROLE SYSTEM

The parole system of this State is meeting with great success. It holds out a constant incentive to the prisoner to conform to the prison rules and regulations, in the hope of receiving his liberty and ultimate pardon.

In 1893 the Legislature of this State enacted a parole law empowering the Board of Prison Directors to grant paroles to prisoners who by their conduct had shown that they were worthy of being released on probation prior to the expiration of their terms.

Very little use was made of this law until 1907. Realizing at that time that it was impossible for the Governor of this State to give to pardons the attention they deserved without neglecting other matters demanding his attention, I suggested to the State Board of Prison Directors that they make a more liberal application of the parole law to worthy and deserving prisoners. As an additional incentive to the prisoner to make good, and to conduct himself as a worthy and upright man outside of the prison, I have granted pardons to those prisoners who had faithfully obeyed the parole laws and regulations for a period of time sufficient to satisfy me of their intention to become honorable and law-abiding citizens, the purpose being to enable every prisoner to earn his liberty by good conduct.

This plan of granting pardons to paroled prisoners has been remarkably successful, and I believe it would be a step backward to change it. I am informed that the prison records of this State show that during the existence of the parole law there is only one case recorded of the subsequent conviction of a man pardoned after parole. This rule results in more frequent pardons being granted by the Executive; but as the prisoner is already at liberty, and has acquired a standing among his fellow men, his transition from a convict to a free man involves no serious change in social conditions, and can only result in good.

During the past two years there have been on parole at times 627 prisoners. Paroled men according to our state records have earned during their time on parole \$642,822 34, and their savings have aggregated over \$150,000. When we realize also how few of the men on parole have violated the confidence reposed in them, and when we further consider that it costs our State about \$180 a year to confine and care for a prisoner, I think it must impress even the most skeptical with the virtues of our parole system. I may further add, that it has been estimated that had all of our paroled men been forced to live out their prison sentences the additional cost to the taxpayers of the State would have exceeded \$500,000.

This policy ought to be continued in fairness to those on parole who are now earnestly striving to become worthy men, so that the hope of ultimate reward may continue before them. An abandonment of the policy would be most discouraging, and would have a serious effect on prison discipline.

REFORM SCHOOLS.

Our reform schools are being very ably managed and are doing good in directing the minds of those confined therein away from crime and criminal conditions. These

schools ought to be encouraged, and sufficient appropriations should be made for the purpose of giving ample accommodations and supplying those confined therein with the means of learning useful trades and acquiring an education. There should not be confined in these institutions, where there are so many young boys, boys of strong criminal tendencies. Some other provision should be made for them. I believe that it is also a mistake to have both girls and boys committed to the same reform school.

SCHOOL OF MANUAL ARTS.

The last legislature made an appropriation of \$10,000 for the establishment of a State Normal School of Manual Arts and Home Economics. This school has been located in Santa Barbara, and the entrance requirements are graduation from a normal school, two years' college work, or teaching experience. Twenty-four graduated last June, and all are now successfully holding positions. An ideal site has been found, as provided in the bill passed by the legislature, and I understand an appropriation of \$200,000 will be asked for buildings, equipment, and support. It seems to me that this appropriation is none too large, and that the greatest encouragement should be given to an institution of this kind. This is the first school of this class in the United States to provide a professional training in all branches of manual training for men and women.

The value of manual training in our schools can not be overestimated, and it follows that a school of this character, educating men and women to enable them to teach manual training in our public schools, is of the utmost importance to the welfare of this State.

It is the purpose of this institution to present many branches, such as domestic science, food, chemistry, domestic art, dressmaking, millinery, textiles, applied design, wood carving, pottery, metal work, tooled leather, bench work, pattern making, turning, forging, plumbing, electric wiring, carpentering, printing, drafting, etc.

With the school open all the year, with a wise administration knowing the needs of the State and prepared by training and travel to meet them, this school will fulfill the hopes of those who believe that all education should be practical, and that the academic work of normal and university should be supplemented with the learning to meet real conditions.

UNIVERSITY OF CALIFORNIA.

The adoption of Senate Constitutional Amendment No. 1 has worked a change in the source of revenue for our State University. On account of increasing attendance and other demands the Legislature of 1900 increased the ad valorem tax to three cents, to be used for the support, maintenance, and permanent improvements of the University.

It was specifically provided that not less than 25 per cent of the amount thus raised should for a period of ten years be used to construct and equip permanent buildings. Under the authorization of this statute the Regents very properly adopted plans for such work, and are now proceeding to make the improvements contemplated.

The amount which would be raised each year by the three-cent tax levy would be about \$700,000, of which about \$175,000 could be used for permanent improvements. This money is now lost to the University, and it must depend upon direct appropriations for its support and for improvements. It is plainly the duty of the Legislature to provide for the maintenance of the present high standard of this institution, and for carrying out the plans of the Regents for its improvement. We must not take a step backward with our educational institutions, least of all with our University. Its magnificent progress, its splendid achievements along educational lines, its rapid increase in attendance, make imperative the demand that this magnificent institution shall be fostered and encouraged by wise legislation and upheld and enlarged by liberal appropriations.

ORPHANS, HALF ORPHANS, AND ABANDONED CHILDREN.

The care and training of the State's dependents has become, and is becoming, one of the expensive responsibilities of the people of the State. California, like New York, is more burdened with this class than are the other states, because of their relation to the nation as gateways for the admission of all classes of immigrants, and California in particular is much burdened on account of its original native population and its climatic prominence as a statewide health resort. Families come to this State to benefit their health, exhaust their means of support in an effort to regain their health, and leave their children for the State to care for. Lax divorce laws and insufficient parental responsibility is another cause of dependency. The juvenile court laws are doing much to correct this, however.

The result is, nevertheless, that California has now over 6,500 children drawing state aid in the forty-six exceptionally well-conducted orphan asylums and through county boards of supervisors, which aid continues up to the age of fourteen years. Then comes a greater responsibility of the State—the training for the trials of life of all such children as may be left as public charges. At the most critical time of life for either boy or girl, those who have not been fortunate enough to find homes with desirable families through the agencies of the numerous admirable societies organized for that purpose in this State are left without training for life's battles.

The last Legislature, feeling its responsibility in this direction, very wisely appropriated money and established the California State Trades and Training School for this character of children, realizing that it is far better to save as good citizens the unfortunate children than it would be to reform them after they have become wayward or criminal.

This school will be devoted to the training of its inmates in the different pursuits of life as may seem best. Its principal aim will be largely along the lines of agriculture and kindred branches, making the school practically self-supporting in so far as it is possible by the cultivation of the soil. Its industrial branches will also be devoted to the training of the young minds and hands in those branches that will produce the best results.

The commission appointed under the law to select a site for the school have done so, conditionally upon the title being approved by the Attorney General.

The site consists of about 3,500 acres, in Knights Valley, Sonoma County, and the surroundings are considered the most beautiful and picturesque in northern California. A pure mountain stream of water pours from the side of Mount St. Helena, capable of furnishing ample power for factory purposes, lighting plant, domestic use, and for irrigation of the fertile valley lands of the tract. Ample standing timber, stone quarries, and grazing lands make the site ideal for the purpose. In this pure air and perfect climate, California, with proper instructions, can save her dependent children, and produce men and women grown under proper environment that will add materially to her rapidly increasing wealth in good citizenship.

There are now in the institutions in the State about 700 children who will be fourteen years old, eligible to admission to this school during the next year—about 275 girls and 425 boys, some may find homes, but the greater portion must be provided with education and training by the State.

There will be some future need in the way of further appropriations to equip the training school for efficient service, and I recommend a liberal appropriation therefor.

FISH HATCHERIES.

It is very important that there should be an abundance of fish in the streams of this State to furnish a cheap food supply for the people. Salmon and striped bass are our two best food fishes and there is no reason why the waters of this State should not be abundantly stocked with them. This can only be done by protecting their spawning grounds and by erecting fish hatcheries.

The fish hatchery at Sisson has been an unqualified success, and similar hatcheries should be erected at various points in this State for the purpose of furnishing this food supply.

One of the most important natural spawning grounds for striped bass is Cache Slough and its tributaries, which empties into the Sacramento River near Rio Vista. Bass going up these streams in large numbers are followed by the fishermen and are caught before they can spawn.

By an adequate and proper protection of this spawning ground, San Francisco Bay and the streams flowing into it will in a few years be thoroughly stocked with this splendid fish, reducing the price to the consumer much below that which now prevails. In addition to the protection of this slough as a natural spawning ground there should be established at some point thereon one of the largest hatcheries in this country, for the purpose of propagating salmon and striped bass. Thousands of small fish hatched at the head waters of our streams never reach tide water, but if hatched in a stream near the ocean they could gain it in safety.

A law should be passed making it unlawful to cast or set a seine or net in this slough or any of its tributaries. If this is done most excellent results will follow, our fish supply will be vastly increased, and its price to the consumer will be greatly reduced.

DEPARTMENT OF ENGINEERING.

Owing to the very severe illness of the State Engineer, the report of the Department of Engineering is not available, and perhaps may be delayed for some further time. An immense amount of work has been done under its supervision and control. With the commencement of the state highway system this department must assume greater burdens and responsibilities. The Act creating this department, with the amendments for 1909, should, and I believe does, contain adequate provisions for the assumption of this most important work without material amendment. All contracts must be approved by the board, of which the Governor is the presiding officer, and he is in close touch with its work. It may be advisable at times for the department to establish certain rules for its guidance, but practically all the necessary basic principles can be found within the Act itself to permit this department to work for the best interest of the State.

STATE FARM.

Under provisions and appropriations of the legislatures of 1905 and 1907 a farm of nearly 800 acres was purchased, and a start was made towards its equipment as an agricultural college farm. Buildings were erected and equipped; lighting, sewer,

and water systems were installed; live stock was purchased and crops planted; in short, all necessary preparations were made for the beginning of instruction as provided in the legislative act.

The first instruction given on the farm was a series of short courses in the fall of 1908. Regular courses from one to eight weeks in length were organized in all branches of agriculture practiced in this State, with an attendance of more than 100 students.

In January, 1909, elective courses were first offered to students of the college of agriculture. Five students attended during the spring of 1909, in 1910 there were nine, and during the coming term nearly thirty are expected.

The University Farm School was also opened in January, 1909. During the first term of its existence twenty-three students were in attendance, the next year there were forty-three, and during the first term of the present year there was a registration of seventy-seven.

Generous provision was made by the Legislature of 1909 for increase of equipment, and for maintenance of instruction on the farm. The increase in the number of students, however, has outrun all provision which has been made. In order to carry on the work of the farm and school in accordance with the high practical standard which has been set, and which was intended by the legislature, more buildings are needed, with a corresponding increase in the number of instructors and in maintenance funds. The location of the farm near a small village makes it impossible for students to find living accommodations outside the farm, and dormitories must be provided. The present dormitory was filled to capacity several weeks before the opening of school last fall—and some of the students have been living in tents.

It is evident to one familiar with the facts that the aims of the farm school are meeting with wide approval throughout the State. There is a demand for the kind of instruction which is given at the farm. In a comparatively short time the school will have hundreds of students. The efficiency of its work will always be hampered if buildings are overcrowded, equipment inadequate, and instructors overworked. The highest interest of the State requires that its citizens shall be educated and prosperous, and the liberal encouragement of all means looking toward this end is one of the most essential aims of government. The greatest educational opportunity of the present lies in the development of such institutions as this which is growing upon the University Farm.

IMPROVEMENT OF MONTEREY HARBOR.

The Joint Committee on Harbors appointed by the Legislature in 1907 called attention to the necessity of a Federal appropriation for Monterey Bay. Such an appropriation now seems probable. It is made a condition of such Federal act that the sum of \$200,000 shall be raised from other sources. The construction of a seawall providing a safe anchorage for ships in this harbor is a matter of the utmost importance, and should strongly commend itself to your consideration. As the National Government does not feel disposed to make the entire appropriation, the balance, or a considerable portion thereof, should be supplied by the State of California.

STATE BOARD OF AGRICULTURE.

During this administration the State Board of Agriculture had a bill passed in the Legislature removing the old agricultural pavilion from the Capitol grounds, it being the purpose of the State Board of Agriculture to park and beautify a large tract of land immediately adjoining the city limits of the State capital, whereupon annual fairs and exhibits could be held, with abundance of room for suitable buildings.

Following this, other laws have been enacted and appropriations have been granted for the erection of a few of the most important buildings necessary for exhibition purposes. Some of these buildings are only partially built and others are very necessary if this State intends to hold annual fairs of the same high standard adopted by many of our Eastern States, and thereby stimulate, protect, and foster production along the lines of agriculture, horticulture, mining, manufacturing, and kindred industries.

The wonderful success of the last State Fair is largely due to the pluck and energy of the citizens and merchants of Sacramento, and the State is greatly indebted to the committee in charge, acting in conjunction with the Directors of the State Board of Agriculture, for one of the best—in fact, by long odds generally conceded the very best fair—the State has ever held. It is not to be expected, however, that the State should continue to look to the citizens of any one city to continue to appropriate money for State purposes, and I therefore hope and trust that this Legislature will give this subject the consideration due it when it is presented by and through the Directors of the State Board of Agriculture.

STATE LIBRARY AND COURT BUILDING.

Not only has the work increased in all the State offices, but likewise there is hardly an officer, department, board, or commission that is not in need of additional room: the Controller and other officials have no private offices in which to conduct

the important affairs of State. Many needed additions have been made by the State Capitol Commissioners during this administration, but the State has outgrown its Capitol building, and it is not large enough to house its courts and its State Library, together with its various other departments centered therein.

I call your attention to the report of our State Librarian, and respectfully suggest that this Legislature take some action towards an investigation of conditions with a view of erecting an appropriate building in the Capitol grounds in which to house the Supreme Court, Appellate Court, and State Library. The latter alone takes up a very large space in the basement, half of the top floor, and a great portion of the first, second, and third floors. Besides taking the space that is now becoming very necessary to the proper conduct of the State's business under the various officials, the inconvenience for those using the library is very marked. More important than this is the unnecessary expense entailed in the management of the library brought about by the existing conditions.

EXECUTIVE OFFICE

Some of the departments, in their biennial reports, call attention to the increase in the amount of work performed. In many instances, judging from the work in my own office, this is undoubtedly true, and legislation should be enacted allowing additional help. As this matter will be brought to your attention in various other ways, I will make no specific recommendation. The executive and clerical work in this office for the last year and a half about equals that of the first two years and a half. During my term the records show we have written over 70,000 letters, many of them requiring considerable research in this as well as other offices of the State government, especially those letters received from foreign countries and sister States.

This office has honored 353 requisitions and issued warrants of rendition for return of criminals to other States. Many of these required hearings which consumed much of the time of the executive. It has granted 274 applications for requisitions by district attorneys of this State on other States and countries for return of criminals to this State. It has issued 4 proclamations offering rewards: 58 holiday and other proclamations; signed 1,308 land patents; issued 6,518 commissions to notaries public, and made 1,214 executive appointments.

During the last session of the Legislature a bill was introduced requiring that a person for whom an application for extradition is granted, must be returned and convicted, otherwise the State was not to be compelled to pay the expenses of the agent appointed. This bill passed the Senate, but was defeated in the Assembly. At almost every session of the Legislature a deficiency claim is granted for the payment of expenses in connection with extradition of criminals. Many district attorneys of the various counties use proper discretion in making applications for extradition, but I am sorry to say a large number do not. If the counties making application for extradition had to bear this expense I feel certain fewer applications would be asked for. I respectfully submit to the Legislature that some action along this line should be taken granting the Executive more power, or the law changed so that the State would not be taxed unnecessarily, especially where conviction is not obtained or the party for whom extradition is asked is not returned.

My relations with both branches of the Legislature have always been most pleasant. Constituted of able, upright men, striving at all times to attain the right, their services have been distinguished by progressive and creative legislation to the great good of the State, and they have helped to make my administration whatever of success it has been.

In conclusion, I desire to express my thanks and appreciation to the officers and employees of the different departments and institutions of the State who have so ably and loyally assisted me in my administration. To their efforts I feel deeply grateful.

APPENDIX

LIST OF REPRIEVES, COMMUTATIONS, AND PARDONS

The number of applications for executive clemency has been very large, and in the consideration of same I have endeavored to be extremely careful that none but those who in justice, humanity, and law should receive clemency. I have been greatly assisted in arriving at satisfactory results by the exercise of the parole system, to which I have referred in the body of this message.

Following is a list of cases in which clemency has been granted during the last two years and since my last biennial message:

REPRIEVES.

APRIL 15, 1908. J. W. FINLEY, convicted in the Superior Court of the county of Sacramento in December, 1906, of the crime of assault with a deadly weapon with malice aforethought, defendant then being a prisoner undergoing a life sentence in the State Prison. As punishment therefor, Finley was sentenced to be executed at the State Prison at Folsom, the 2d day of March, 1906. Finley thereafter appealed his case to the Supreme Court of the State, which appeal was denied. The Superior Court

of Sacramento County thereafter ordered that Finley be executed on the 17th day of April, 1908. By reason of my absence from the State I had no opportunity to examine the matters submitted to this office upon his application for clemency. I therefore reprieved him until the 15th day of May, 1908. Subsequent reprieves were made on May 14th, May 27th, June 10th, and August 12th to enable Finley to apply for a writ of error to appeal to the Supreme Court of the United States.

DECEMBER 9, 1908. FRANCISCO QUIJADA, convicted in the month of December, 1905, in the Superior Court of the county of Sacramento of the crime of assault with a deadly weapon with malice aforethought, defendant being at the time of the commission of said assault a life prisoner in the State Prison, and sentenced to be hanged. Quijada was convicted under the provisions of Section 246 of the Penal Code, and as the constitutionality of such section was in question in the case of the *People vs. J. W. Finley*, on appeal to the Supreme Court of the United States, I ordered a reprieve until the 12th day of February, 1909, so that he might not be executed until the constitutionality of such section was determined. For the reason that the matter of appeal of J. W. Finley was still pending before the Supreme Court of the United States, I again on February 8, 1909, reprieved said Francisco Quijada until the 9th day of April, 1909. Subsequent reprieves were made on the 7th day of April to July 9, 1909, and on the 3d of July to October 8, 1909, and on September 27th to February 11, 1910, and on January 29, 1910, to May 13, 1910, and on April 26, 1910, to October 7, 1910, and on September 26, 1910, to April 7, 1911.

MAY 25, 1909. CHARLES CARSON, convicted in January, 1906, in the Superior Court of the county of Sacramento of the crime of assault with a deadly weapon with malice aforethought, defendant being at the time of commission of said assault a life prisoner in the State Prison and sentenced to be hanged. Said Charles Carson was convicted under the provisions of section 246 of the Penal Code, and as the constitutionality of such section was in question in the case of the *People vs. J. W. Finley*, on appeal to the Supreme Court of the United States, therefore I ordered a reprieve until October 1, 1909, so that he might not be executed until the constitutionality of such section was determined. Subsequent reprieves were granted on September 18, 1909, to February 4, 1910, and on January 26, 1910, to May 6, 1910, and on the 26th day of April, 1910, to October 7, 1910, and on September 28, 1910, to April 7, 1911.

AUGUST 2, 1909. W. B. BRADBURY, convicted in 1904 in the Superior Court of the county of Marin and sentenced to imprisonment for one year in the State Prison at San Quentin. Said Bradbury appealed from said judgment to the Appellate Court, and on September 24, 1908, said judgment was reversed and prisoner remanded for new trial. In November, 1908, the District Attorney of Marin County carried the appeal to the State Supreme Court, and in June, 1909, the Supreme Court reversed the ruling of the Appellate Court and affirmed the judgment of the Marin County Superior Court. I having been requested to pardon said W. B. Bradbury, and not having at the time had an opportunity to examine into the merits of the case, reprieved the said Bradbury until September 2, 1909, unless otherwise ordered.

SEPTEMBER 8, 1910. LOUIS AUGUSTINE, convicted in Lake County of the crime of murder in the first degree and sentenced to be hanged at the State Prison at San Quentin on Friday, the 16th day of September, 1910. An application for commutation of sentence having been filed in this office, and that I might review the transcript of testimony in this case, I caused a reprieve of the judgment and sentence of the said Louis Augustine to and until Friday, the 18th of November, 1910. Subsequent reprieve was granted said Louis Augustine for the reason that there had not yet been filed in this office a transcript of testimony taken at the trial, which was necessary for me to have before I could pass upon the application for commutation of sentence. Said subsequent reprieve was made November 4, 1910, to December 16, 1910, and by Acting Governor Porter on December 12 to January 20, 1911.

NOVEMBER 30, 1910. WILLIE LUIS, convicted in San Luis Obispo County of the crime of murder in the first degree, was sentenced to be hanged in the State Prison at San Quentin on Friday, December 1, 1910. It appeared that this is a matter which should be given close attention and consideration, and as I had not yet had an opportunity to examine into the facts of the case, I therefore issued a reprieve of judgment and sentence to Friday, February 3, 1911.

COMMUTATIONS.

FEBRUARY 11, 1909. ED SILVER, convicted in December, 1907, of the crime of murder in the first degree in the county of San Bernardino and sentenced to be hanged on the 19th day of February, 1909. I have made careful investigation of all the facts surrounding the commission of the offense for which he was adjudged to be guilty, and have carefully investigated the conduct of said prisoner since that time, and have weighed most carefully the recommendations of those asking clemency for said Ed Silver. In view of the opinion signed by the following members of the Supreme Court: Lucien Shaw, J., W. H. Beatty, C.J., Henry A. Melvin, J., F. W. Henshaw, J., F. M. Angellotti, J., W. G. Lorigan, J., dated San Francisco, Cal., December 19, 1908, and the statement by them that there was serious doubt in their minds as to the justice of the decision that the crime was accompanied by no mitigating circumstances sufficient to have reduced the punishment to imprisonment for life, I therefore commuted the

death sentence of said Ed Silver to imprisonment for life in the State Prison at San Quentin.

MARCH 19, 1909. FRANK S. WILSON, in June, 1902, was convicted in the county of San Joaquin of the crime of robbery and sentenced to the State Prison at Folsom for the term of his natural life. The State Board of Prison Directors, under resolution adopted July 18, 1908, have recommended that sentence of said Wilson be commuted. A majority of the members of the Supreme Court of the State on the 8th day of October, 1908, recommended that executive clemency be extended to the said Frank S. Wilson by commutation from that of life imprisonment to a term of not less than ten years. It appears that the said Wilson has been an exemplary prisoner during the full term of his imprisonment, and that in the opinion of the State Prison Board he will ever after remain a good and law abiding citizen. In view of these recommendations and such other recommendations as are on file with such application, the sentence of said Frank S. Wilson was commuted, said commutation to take effect immediately, provided that if the said Frank S. Wilson shall thereafter be convicted of any felony this commutation shall become void, and in addition to the sentence imposed for such felony he shall serve the remainder of the sentence cut short by this order.

JUNE 14, 1909. JOHN W. LAKE, convicted in the county of Alameda in June, 1908, of the crime of passing a fictitious check, and sentenced to two years in the State Prison at San Quentin. It appeared that said Lake is a very old man, in bad health, and not expected to live through an operation necessary to save his life; that he has been confined in the prison hospital for six months past, and will remain there until discharged. The State Board of Prison Directors have recommended executive clemency. The sentence of said John W. Lake was commuted so that he could be released from prison at once.

JUNE 21, 1909. JOHN STEVENS, convicted in August, 1892, in the county of Calaveras, of the crime of burglary in the first degree, was sentenced for a term of twenty-seven years upon nine commitments of three years each, each sentence of three years to take effect on the termination of the preceding one. It appears that at the time sentence was pronounced on said Stevens it was and previously had been the custom, where a prisoner was imprisoned upon two or more terms running consecutively, the credits for good behavior were computed on the aggregate time of such terms; it further appears that said custom has been declared illegal by the Attorney General, and such credits for good behavior are now computed upon each sentence separately, thereby increasing in the case of said Stevens' actual term to serve four years and seven months. Judge Gottschalk, who sentenced said Stevens, has certified that it was his intention in imposing the sentence that Stevens would receive full credits based on the entire time to serve; in other words, he was to serve equal to a single term of twenty-seven years. Therefore by reason of the foregoing statement, and that the conduct of said John Stevens has been exemplary, and a majority of the Judges of the Supreme Court of the State have recommended the commutation of sentence, and by such other recommendations as are on file with such application. Acting Governor Porter commuted the sentence of John Stevens to take effect immediately, provided that if said John Stevens shall hereafter be convicted of any felony this commutation shall become void, and in addition to the sentence imposed for such felony he shall serve the remainder of the sentence cut short by this order.

JULY 9, 1909. FRANK METZGER, convicted in April, 1903, in the county of Los Angeles of the crime of robbery, was sentenced to life imprisonment in the State Prison at San Quentin. There have been filed in this office affidavits which tend to show that the conviction of said Metzger was the result of a mistaken identity, and while I was not fully satisfied from such affidavits and proofs of the innocence of said Metzger, yet, in view of this uncertainty, I felt that his sentence should be commuted to such term as will permit him to be paroled within the near future, so that he may be able to show by his conduct outside the prison walls whether he is worthy of receiving a full pardon. It appears that said Frank Metzger's prison conduct has been exemplary, and he had conformed to all the prison rules. Therefore, in accordance with recommendations that are on file with such application, I commuted the sentence of said Frank Metzger to twenty years.

SEPTEMBER, 21, 1909. WILLIAM BUCKLEY, convicted in February, 1902, in San Francisco of the crime of murder in the first degree, was sentenced to be hanged. It appeared from statement submitted to me that the actual killing of Rice was committed by one "China Copeland" and not by said Buckley. Of the truth of this I am fully satisfied. But in view of the fact that Buckley was present at the time of the killing, his flight from the scene of the fatal affray, and other circumstances connected therewith, I can not but feel that there may be some justification for the belief that Buckley was in some way culpable. My opinion is confirmed by a letter from Hon. F. M. Angellotti, Associate Justice of the Supreme Court of this State. I therefore commuted the sentence of the said William Buckley to fifteen years, which time would entitle him to immediate parole, to the end that his conduct may be determined outside of prison walls whether he is worthy of a full and complete pardon.

JANUARY 19, 1910. E. EDMINSTER, convicted in March, 1902, in San Francisco of the crime of burglary in the second degree, was sentenced to undergo an imprison-

ment of eighteen years in the State Prison at San Quentin upon seven commitments. Said Edminster had suffered a previous conviction of burglary in the second degree. The State Board of Prison Directors by resolution dated November 13, 1909, represented to the Supreme Court of this State that the conduct of the said E. Edminster had been good, that he had been a faithful workman, and that said Edminster was losing his sight; his left eye was sightless and the right eye seriously impaired and steadily failing, as evidenced by statement of oculist Wallace A. Franklin, the result of which examination was concurred in by Resident Physician W. J. Stone, whereon the majority of the Judges of the Supreme Court, F. M. Angellotti, F. W. Henshaw, W. G. Lorigan, M. C. Sloss, and Henry A. Melvin, joined in the recommendation that the application be granted. Therefore, in compliance therewith, the sentence of said E. Edminster was commuted to such time as would entitle him to release immediately upon signing the commutation. Provided that if the said E. Edminster shall hereafter be convicted of any felony this commutation shall be void, and, in addition to the sentence imposed for such felony he shall serve the remainder of the sentence cut short by this order.

FEBRUARY 15, 1910. J. H. RUSSELL, convicted in April, 1908, in the county of Alameda of the crime of passing a fictitious check, was sentenced to five years in the State Prison at San Quentin. It appears that said Russell had already served two and a half years in the county jail pending his appeal to the appellate court. It also appears from the certificate of the Justices of the District Court of Appeal of the First District of this State that such appeal was a meritorious one, and the questions involved were such as to justify the defendant in anticipating a reversal of the judgment appealed from. The commutation of sentence was requested by the Justices of the District Court of Appeal and by Associate Justice of the Supreme Court Hon. F. M. Angellotti, who wrote the opinion of the Supreme Court affirming said judgment, and by Hon. Henry A. Melvin, who presided at the trial in the Superior Court, and by the jurors who sat in judgment upon the trial of said case, and by Frank Barnett, Sheriff of Alameda County, who certified that he was an exemplary prisoner when in the county jail, and had rendered valuable assistance to the authorities at the time of an attempted outbreak in said county jail. Therefore with the recommendations on file with such application I commuted the sentence of said J. H. Russell to one year.

MARCH 22, 1910. EDWARD CONNELLY, convicted in August, 1892, in the county of Calaveras of the crime of burglary in the first and second degrees, was sentenced to thirty-nine years in the State Prison at San Quentin upon twelve commitments, to serve a series of consecutive terms as follows, to wit: One for six and eleven for three years each. The said Edward Connelly was previously convicted of burglary in the second degree. It appeared that said Connelly has been a patient in the prison hospital for eleven years past, and that there is a hardening of the posterior column of his spinal cord, and he has practically no use of his body from the waist down, and that this condition is a progressive one, and one for which there is no cure, and will continue to grow worse until he is confined to his bed. This statement is substantiated by the Resident Physician. The State Board of Prison Directors, by resolution dated February 12, 1910, recommended to the Supreme Court of the State and to the Chief Executive that the sentence of the said Edward Connelly be commuted to twenty-nine years. It appeared that the statements of the State Prison Board are true and correct and that said Connelly has at all times conducted himself in strict conformity with the prison rules, and a majority of the State Supreme Court, viz., W. H. Beatty, Chief Justice, W. G. Lorigan, Justice, Henry A. Melvin, Justice, Lucien Shaw, Justice, and F. M. Angellotti, Justice, have recommended commutation be granted. Commutation of sentence to twenty-nine years was issued to said Edward Connelly, provided that if the said Edward Connelly shall thereafter be convicted of any felony this commutation shall be void, and in addition to the sentence imposed for such felony he shall serve the remainder of the sentence cut short by this order.

MAY 25, 1910. CORNELIUS J. CROWLEY, convicted in January, 1904, in the county of Riverside of the crime of murder, and sentenced to life imprisonment at the State Prison at San Quentin. It appears from statement of W. J. Stone, M.D., resident physician of the prison that said Crowley was suffering from pulmonary tuberculosis and that he could survive but a few days. John E. Hoyle, Warden of San Quentin Prison, recommended that it would be advisable to commute this sentence so as to entitle him to release at once. It further appeared that the conduct of said Crowley has been such as to entitle him to the favorable consideration of the prison officials. Therefore, by reason of the foregoing representations and recommendations, Acting Governor Porter commuted the sentence of the said Cornelius J. Crowley so that he would be entitled to immediate release.

JUNE 17, 1910. ARTHUR VALIN, convicted in November, 1905, in the county of San Bernardino of the crime of robbery, was sentenced to a term of eighteen years in the State Prison at Folsom. It appeared that said Arthur Valin at the time of the commission of the offense was of the age of twenty years, and was at the time under the influence of liquor and in a measure not responsible for his criminal act. It also appeared to me that the term of eighteen years was an excessive sentence in view of

all the circumstances of the case, his age, his first offense; that upon the trial of Valin there was a disagreement of the jury, and it required a second trial before conviction could be secured. I therefore commuted the sentence of the said Arthur Valin to the term of ten years, provided that if said Arthur Valin thereafter be convicted of any felony this commutation shall be void, and in addition to the sentence imposed for such felony he shall serve the remainder of the sentence cut short by this order.

AUGUST 8, 1910. JOHN McEVoy, convicted in June, 1908, in the county of Imperial of the crime against nature, and sentenced to a term of ten years in the State Prison at San Quentin. It appeared the offense was committed at a time when McEvoy was under the influence of liquor and in a measure not responsible for his criminal acts; also it appeared to me that the term of ten years was an excessive one in view of all the circumstances in the case, and it being his first offense. I therefore caused the sentence of said John McEvoy to be commuted to a term of five years.

AUGUST 23, 1910. FABRONIO MACHUCA, convicted in December, 1908, in Los Angeles of the crime of murder in the first degree, was sentenced to be hanged. In a letter from Hon. M. C. Sloss, Associate Justice of the Supreme Court of the State of California, he stated that upon review of the evidence in this case there was left in his mind a grave doubt whether under all the facts the extreme penalty of the law should, in justice, have been imposed upon the accused, and recommended that executive clemency be exercised to said Machuca with a view that the ends of justice would be served by a commutation of sentence. This opinion and recommendation was concurred in by all of the members of the Supreme Court, and signed by W. H. Beatty, Chief Justice, F. M. Angellotti, Henry A. Melvin, W. G. Lorigan, F. W. Henshaw, and Lucien Shaw, Associate Justices. Upon careful examination of the record I concurred in the opinion of the Supreme Court, and in accordance with the recommendations that are on file with such application, commuted the sentence of said Fabronio Machuca to life imprisonment.

DECEMBER 17, 1910. WILLIAM D. WRIGHT, convicted in October, 1906, in the county of Santa Clara of the crime of murder, was sentenced to life imprisonment in the State Prison at San Quentin. It appeared that the Board of State Prison Directors received a letter from Hon. J. R. Welch, the judge who sentenced said William D. Wright, in which he said, in part: "I am writing this letter to recommend a commutation of sentence to a term of years. I do not regard Wright in the category of hardened criminals. He committed his crime under great excitement, brought on by domestic infelicity. He was not himself; yet this does not excuse him for the deed committed. He must be punished. The question remains, how much shall he be punished, and what is best for the individual and for society? He did not try to evade punishment. He wished to plead guilty. To receive the plea meant the imposing of the death sentence. I did not care to take the responsibility; a jury trial was ordered. He was found guilty as charged, and the jury fixed the punishment at life imprisonment. Because of the circumstances of the crime and because of the character of the man, I have reached the conviction, unaided by the suggestion of any one, that society will not suffer, and the individual will be made better and of some use to himself and his fellow men by commutation of sentence." It appears that said William D. Wright has an excellent prison record. For the foregoing reasons, and in accordance with the recommendations on file with such application, Acting Governor Porter commuted the sentence of the said William D. Wright to twenty years, provided that if the said William D. Wright shall hereafter be convicted of any felony this commutation shall become void, and in addition to the sentence imposed for such felony, he shall serve the remainder of the sentence cut short by this order.

DECEMBER 17, 1910. ARCHIE P. STANSELL, convicted in December, 1907, in the county of Fresno, was sentenced to a term of fifty years in the State Prison at San Quentin. It appears that the State Board of Prison Directors, by resolution adopted December 10, 1910, concurred in the recommendation of the Judge who imposed the sentence on the said Stansell, that his sentence be commuted to a term of ten years, which will permit of his being paroled at once, and recommend that the Governor do commute the said sentence to a term of ten years. Acting Governor Porter commuted the sentence of the said Archie P. Stansell to a term of ten years, provided that if the said Archie P. Stansell shall hereafter be convicted of any felony this commutation shall be void, and in addition to the sentence imposed for such felony he shall serve the remainder of the sentence cut short by this order.

DECEMBER 17, 1910. HARRY FINNERTY, convicted in January, 1908, in the county of Fresno of the crime of robbery, was sentenced to a term of fifty years in the State Prison at San Quentin. It appeared from a resolution adopted by the State Board of Prison Directors dated December 10, 1910, that said Harry Finnerty has received the recommendation of the Judge who imposed the sentence and the District Attorney who prosecuted the case for commutation of sentence to such term as will permit him to be paroled at once. The Board of State Prison Directors concurred with the said Judge and District Attorney and recommended that the sentence of said Harry Finnerty be commuted to a term of ten years. Therefore, in accordance with the recommendations of the Board of Prison Directors and such other recommendations as are on file with such application, Acting Governor Porter commuted the sentence of said Harry Finnerty to ten years.

DECEMBER 17, 1910. THOMAS MORAN, convicted in April, 1902, in the county of San Francisco of the crime of murder, was sentenced to life imprisonment in the State Prison at Folsom. It appeared from affidavits and statements submitted to this office in the Buckley case, that the actual killing of Rice was committed by one "China Copeland." It also appeared that the claim in the Moran case at its inception was that Moran wielded the club which felled Rice to the ground, immediately before the killing, and that Moran rode out with Buckley on the front left hand open portion of the car. The witness Piatt testified positively that Moran and Buckley got off the car together; that Moran used the club on Rice, and that Buckley fired the fatal shots. It further appeared from affidavits and statements submitted to this office in the Buckley case that witnesses Walter J. Piatt, Erline Piatt, and Arthur Cleve were mistaken in their identification of Buckley, and it appeared that, stripped of this element, the only evidence against Moran is that he went to the scene of the shooting, and that when he found that there was a likelihood of getting into trouble he first denied that he had been to the scene of the shooting, and afterward admitted it. Therefore, in accordance with the foregoing statements and in accordance with the recommendations that are on file with such application, Acting Governor Porter commuted the sentence of the said Thomas Moran to a term of fifteen years.

PARDONS.

RECOMMENDED BY STATE BOARD OF PRISON DIRECTORS.

DURING the first year of my administration I adopted the policy of granting pardons to paroled prisoners upon full and satisfactory proof that such prisoners had conducted themselves in entire conformity with all parole requirements, and had shown by their conduct that they had become sober, industrious, and upright men. This was established in each case by the reports made to the State Board of Prison Directors by the parole officer and others familiar with the conduct and habits of life of the paroled prisoner. Upon the recommendation of the State Board of Prison Directors this office granted pardons to the following deserving prisoners:

PARDONS—Continued.

FEBRUARY 1, 1909. ASCENSION VELA was convicted in the county of Los Angeles of the crime of manslaughter, and was sentenced to a term of six years in the State Prison at Folsom. It appears from affidavits that the conviction of said Ascension Vela was procured through perjured testimony, and that true facts would show that such homicide was committed in self-defense, and that the verdict rendered against him was improper, and he should have been acquitted had not perjured testimony been given at the trial. For the foregoing reasons a pardon was issued to said Ascension Vela.

MAY 14, 1909. GERALD A. COURVOISIER, in December, 1907, was convicted in San Francisco of the crime of forgery and sentenced to six years in the State Prison at San Quentin. Upon the recommendation of a majority of the Judges of the Supreme Court of this State a pardon was granted the said Gerald A. Courvoisier.

JUNE 21, 1909. RALPH A. HUNTINGTON, convicted in July, 1908, in San Francisco of the crime of manslaughter, was sentenced to a term of four years in the State Prison at San Quentin. It appeared that said Huntington had been ever since he was received at the State Prison under the care of the prison physician, having tubercular disease, and it appeared from report of the prison physician that said R. A. Huntington could live but a short time. Therefore, it appeared that no good purpose could be served by compelling the said R. A. Huntington to serve the balance of his term and that his death would be hastened by continual imprisonment. The Board of State Prison Directors, by resolution dated April 10, 1909, recommended that executive clemency be extended to said R. A. Huntington. For the foregoing reasons a pardon was issued by Acting Governor Porter.

JUNE 24, 1909. R. D. JACKSON, convicted in the month of January, 1903, in the county of Los Angeles of the crime of burglary in the first degree, was sentenced to ten years at San Quentin, and on said day and date the said Jackson was convicted in the same court of the crime of burglary in the second degree and sentenced to five years at San Quentin. Said Jackson was paroled on September 1, 1908, and ever since has led an honorable and upright life. It appeared that said Jackson must on the 27th day of July, 1909, be returned to the prison to serve his second sentence, and under the parole laws he could not receive his liberty upon parole for a period of one year thereafter. It appeared that his conduct had been highly commendable, and that he had given evidence of complete reformation. The honorable Board of Prison Directors and a majority of the Justices of the Supreme Court recommended that a pardon be granted to the said paroled prisoner. Acting Governor Porter granted a pardon to the said R. D. Jackson for the commission of the said crime of burglary in the second degree and ordered that he shall not be compelled to undergo any imprisonment for the commission of the second crime.

MAY 26, 1910. W. F. CORD, convicted in June, 1908, in the county of Tulare of the crime of manslaughter and sentenced to a term of ten years in the State Prison at San Quentin. It appeared that the crime for which Cord was convicted was committed under great provocation, and that many facts connected therewith were not available at the trial for the defense of Cord, but have since come to light, and create serious doubt as to his guilt. It further appeared that said W. F. Cord had lived in Tulare County for twenty years prior to the commission of this offense, and had always been a quiet, sober, and industrious man, and had never had trouble before. It also appears that said Cord is the father of five minor motherless children who are dependent upon him for support. Petitions have been filed in this office by all the living jurors who sat on the trial, asking, in view of the circumstances which had come to their notice and knowledge since the trial, that said Cord be pardoned. Petitions signed by hundreds of the most prominent citizens of Tulare County, testifying that Cord was a quiet, sober, industrious man and never in previous trouble, and asking for his pardon, have been presented. It appeared that Cord had already suffered almost two years' imprisonment. Under these circumstances Acting Governor Porter considered it right and proper to pardon the said W. F. Cord.

JUNE 27, 1910. A. J. FLOOD, convicted in January, 1910, in the county of Alameda of the crime of forgery, was sentenced to a term of one year in the State Prison at Folsom. It appears that the conduct of said Flood has uniformly been good, and that he faithfully discharged the duties assigned him during his imprisonment, and that at a meeting of the State Board of Prison Directors June 18, 1910, considering the conduct of the prisoner, by resolution recommended that the Governor do extend executive clemency to the said A. J. Flood. A pardon was therefore issued.

SEPTEMBER 2, 1910. C. M. REED, convicted in January, 1910, in the county of Contra Costa of the crime of burglary in the second degree, was sentenced to a term of five years in the State Prison at San Quentin. In a letter from the President of the State Board of Prison Directors, written by direction of said Board, relative to a report from Resident Physician W. J. Stone of San Quentin Prison to Warden J. E. Hoyle of the same prison, respecting the condition of health of said Reed, and a communication of Warden Hoyle transmitting said report, both communications being dated August 29, 1910, the Board adopted an order directing the president to communicate with the Governor, and to state that in the judgment of the Board the above

case was one where executive clemency might be properly exercised, to the end that the prisoner might end his life at home with his wife, adding that his wife claims to be capable of taking care of him during the very short time he has to live. A majority of the Justices of the Supreme Court joined in the following recommendation to the Governor: "In pursuance of the foregoing statement from the State Board of Prison Directors and solely upon the ground of humanity, we Justices of the Supreme Court of California hereby recommend the pardon of said C. W. Reed, September 1, 1910. W. H. Beatty, Chief Justice; F. M. Angellotti, Associate Justice; Lucien Shaw, Associate Justice; F. W. Henshaw, Associate Justice." A pardon was therefore issued to said C. M. Reed, to take effect immediately.

OCTOBER 6, 1910. MARY ANN DELEHANTY, convicted in July, 1909, in San Francisco of the crime of manslaughter and sentenced to a term of eighteen months in the State Prison at San Quentin. The judge before whom the prisoner was tried and convicted and the district attorney, who were familiar with all the circumstances in the case, have requested that a pardon be granted said Mary Ann Delehanty. In accordance with the recommendations on file with such application I caused a pardon to be issued to the said Mary Ann Delehanty, provided that if the said Mary Ann Delehanty shall hereafter be convicted of any misdemeanor this pardon shall become void and in addition to the sentence imposed for such misdemeanor she shall serve the remainder of the time cut short by this order.

DECEMBER 17, 1910. HERBERT THAYER THORNBURGH, convicted in July, 1910, in the county of Sacramento of the crime of obtaining money under false pretenses, was sentenced to a term of two years in the State Prison at San Quentin. It appeared that said Thornburgh was a duly licensed physician and surgeon employed by the Fer-Don Medicine Company on a salary at the time of the commission of the alleged crime, and he was included as one of the defendants in the indictment returned to the Superior Court. All parties connected in the crime had been convicted, and the most guilty of the parties had received their freedom. It also appeared that said Thornburgh had aided the officers in securing the conviction of the Fer-Dons and it further appeared that said Dr. Thornburgh was in poor health, having contracted malarial fever while in the service of the United States as a contract doctor in the Philippines, and since his confinement he had been affected with severe attacks of heart trouble, and his confinement had undermined his health to the extent that further confinement would so impair it as to prevent his recovery. J. W. Hughes, Judge of the Superior Court, who tried and sentenced said Thornburgh, and E. S. Wachhorst, the District Attorney who prosecuted the case, have recommended executive clemency. For the foregoing reasons, and in accordance with the recommendations that are on file with such application, Acting Governor Porter pardoned the said Herbert Thayer Thornburgh.

DECEMBER 17, 1910. SEVARIANO GONZALES, convicted in January, 1903, in the county of Los Angeles of the crime of murder in the first degree, was sentenced to life imprisonment in the State Prison at San Quentin. It appeared from a statement filed in this office by Leonard Mordaunt, a celebrated philanthropist who has devoted much time to criminology and who has investigated this case, also from affidavits from several police officers of Los Angeles city, among them F. J. Tamantes, that said Gonzales was a Mexican and could not speak the English language, and did not understand any part of the proceedings at the time of the trial, and being friendless and penniless, counsel was appointed for him by the court, and it appeared from the said statement and affidavits that said Gonzales was neglected by his attorney, that there was at the time of the trial reasonable doubt as to the guilt of the defendant, and that certain testimony suggested by the said police officers was not brought out in the trial whereby said Gonzales might have been proven innocent of the crime of which he was convicted; and it further appeared that Gonzales had an excellent prison record. For the foregoing reasons, and in accordance with the recommendations on file with such application, Acting Governor Porter granted a pardon to the said Sevriano Gonzales.

DECEMBER 22, 1910. HARRY SQUIRE, convicted in May, 1905, in the county of San Francisco of the crime of attempt to commit arson, was sentenced to a term of twelve years in the State Prison at San Quentin. It appeared that said Harry Squire afterward perfected an appeal, and the bill of exceptions to be used on appeal was burned in the general conflagration of April, 1906, and that he had since been unable to have the records of his appeal restored for want of funds, and continued to be confined in the county jail upon the stay of proceedings granted in the superior court pending the appeal. It further appeared that during the time that said Harry Squire has been an inmate of the county jail he has won the sympathy and good grace of the sheriff and all the jail officials by his uniformly excellent and model conduct, as well as his valuable services to the county, and is a trusty at the jail and holds the highest position obtainable by an inmate of the jail, and it appeared that he had been actually in confinement for over six years, and that the grand jury through its foreman and secretary, the committee on county jail, the district attorney, and the sheriff did recommend and petition that a pardon be granted. Therefore, by reason of the record and in accordance with the recommendations on file in this case, Acting Governor Porter granted a pardon to the said Harry Squire.

DECEMBER 23, 1910. ALBERT J. WARD, convicted in February, 1910, in the county of Los Angeles of the crime of burglary in second degree, was sentenced to a term of five years in the State Prison at San Quentin. It appeared that said Ward was serving a third term in the State Prison; that he had not served one calendar year of the term for which he was last sentenced, therefore could not be paroled. It further appeared that said Albert J. Ward was a patient in the Prison Hospital, that he was suffering from an incurable disease, and in the opinion of the Prison Physician and also of several other reputable physicians who have examined the patient that he has only a short time to live. The State Board of Prison Directors in a resolution dated December 10, 1910, recommended to this office and to the Honorable Justices of the Supreme Court that a pardon be granted to the said Albert J. Ward. A majority of the members of the Supreme Court of this State have in accordance with said recommendation recommended that a pardon be granted. In accordance with the recommendations on file with said application, Acting Governor Porter granted a pardon to the said Albert J. Ward.

POLICE COURT AND COUNTY JAIL.

PARDONS (PETTY CRIMES).

JUNE 3, 1909. W. J. DALEY, convicted in the Police Court of Oakland in January, 1909, of the crime of petit larceny, and sentenced to six months in the city prison at Oakland. Said Daley has served more than four months of the sentence imposed by the court. Judge George Samuels of the Police Court who sentenced said Daley, W. J. Hennessey, the prosecuting attorney, and J. F. Lynch, Captain of the Police of Oakland, recommended clemency to be extended to said W. J. Daley; therefore a pardon was granted to take effect immediately.

NOVEMBER 3, 1909. CARL A. HOLMQUIST, convicted in the Police Court of Los Angeles Township in August, 1909, of the crime of vagrancy, was sentenced to six months' imprisonment in the city jail of Los Angeles. It appears that said Holmquist is an old man and has served three months of his sentence. J. D. Fredericks, District Attorney of Los Angeles County, and the Mayor of Los Angeles City have recommended that executive clemency be exercised in this case, which recommendations were joined in by a number of citizens of Los Angeles in petition, therefore a pardon was issued for the said Carl A. Holmquist.

MARCH 22, 1910. W. H. FORD, convicted in the Police Court of Los Angeles City in February, 1910, of the crime of vagrancy, was sentenced to serve a term of 180 days in the city jail. It appeared that for many years past said Ford has suffered from erysipelas of the brain, and that by reason of said disease of the brain said W. H. Ford was at date of commission of the crime mentally unbalanced and incompetent, and was not responsible for the crime committed. It further appears that such facts were unknown to the Hon. H. H. Rose, Judge of said court, and that had said Judge been acquainted with said facts he would not have sentenced the defendant. It appeared that further confinement in prison would further unbalance said Ford's mind, and that it was for the best interest of said Ford that he be placed in a hospital, where proper treatment might be given, provision for such treatment had already been made. The petition for his pardon was signed by such men as Hon. Henry T. Gage, Edward H. Brady, M. H. Flint, and many others. I therefore issued a pardon to the said W. H. Ford.

MARCH 29, 1910. A. H. SOUTHWICK, convicted in the Police Court of the city of Oakland on three charges of battery, was sentenced to imprisonment in the city jail of Oakland for six months on each charge. It was represented that the city jail in which he was confined was in an unsanitary condition and that said Southwick was in poor health, and if confined in said jail for the remainder of his sentence that his sickness would result fatally. His pardon was recommended by the District Attorney of Alameda County, the Chief of Police of Oakland, and many others familiar with the circumstances of such offense and the condition of the said prisoner. It further appeared that said Southwick would be removed to and placed in a Soldiers' Home where he could receive such care as was necessary to restore him to health, therefore a pardon was issued to said A. H. Southwick.

MARCH 31, 1910. WILLIAM NASH, convicted in November, 1909, in the Police Court of the city of Oakland of the crime of vagrancy, was sentenced to imprisonment in the city jail at Oakland for six months. It appeared that said Nash suffered a stroke of paralysis on February 19, 1910, and had been ever since confined in bed on account of said paralytic stroke. It further appeared that said Nash had a mother and sister residing at Hot Springs, Arkansas, who would take said Nash to their home for the purpose of caring for him in his illness. Dr. W. A. Clark, superintendent of the Alameda County Hospital, represented to me that the chances of cure for said Nash would be materially improved by a sojourn at the Arkansas Hot Springs, where his friends wish to take him. His pardon was recommended by George Samuels, Judge of the Police Court, W. J. Hennessey, Prosecuting Attorney of the Police Court, A. Wilson, Chief of Police, and J. F. Lynch, Captain of Police. William Nash was therefore pardoned.

APRIL 2, 1910. ERNEST CICERO, convicted in the Police Court of the city of Oakland in February, 1910, of the crime of battery, was sentenced to pay a fine of twenty dollars and serve twenty days in the city prison. It appeared that said Cicero has paid the fine of twenty dollars, and had served four days and was out on bail pending appeal. It further appeared from statement of the Police Judge that circumstances have arisen which show that the said Ernest Cicero had been sufficiently punished, and a doubt had been cast upon the truthfulness of the testimony given by one of the witnesses for the prosecution. It further appeared that the mother and sister of said Cicero are largely dependent upon him for support, and that no further good could be accomplished by compelling him to serve the balance of his sentence. A pardon was therefore granted said Ernest Cicero.

AUGUST 2, 1910. AUGUST FAURE, convicted in the Police Court of the city of Oakland of the crime of battery, was sentenced to six months in the city jail of Oakland. It appears that said Faure is seventy-two years of age and in declining health, and that he has already served three months of his sentence. The Superintendent of Police, together with a number of police officers who are familiar with the case, have joined in a petition that clemency be granted said August Faure. A pardon was therefore issued to him.

SEPTEMBER 3, 1910. MAY STEVENS, convicted in the Police Court of the city of Oakland of the crime of drunkenness, was sentenced to a term of four months in the city jail of Oakland. The Judge who sentenced the prisoner, the Prosecuting Attorney, the Superintendent of Police, and the Captain of Detectives of the city of Oakland, who are familiar with the circumstances in the case, have joined in a petition that clemency be granted to said May Stevens. It appears that the said May Stevens has served more than one half of the sentence imposed upon her. In accordance with the recommendations on file with such application, I pardoned the said May Stevens.

SEPTEMBER 4, 1910. JESUS QUIROS, convicted in the Police Court of the city of Los Angeles in August, 1910, of the crime of intoxication, was sentenced to a term of fifty days in the city jail of Los Angeles. The police magistrate who sentenced said Quiros and who is familiar with all the circumstances in the case, has petitioned that clemency be granted. In accordance with the recommendations on file with such application, I caused a pardon to be issued to said Jesus Quiros.

NOVEMBER 3, 1910. EUGENE FRANKLIN, convicted in the Police Court of the city of Los Angeles in September, 1910, of the crime of carrying deadly weapons in a rude and threatening manner, was sentenced to a term of ninety days in the city jail of Los Angeles. The Judge before whom the prisoner was tried and convicted and the Prosecuting Attorney, who are familiar with all the circumstances in the case, have joined in a petition that clemency be granted said Franklin. It appeared that said Franklin had served more than one half of his sentence. In accordance with the recommendations on file with such application, a pardon was issued.

DECEMBER 23, 1910. WILLIAM LACEY, convicted December 16, 1910, of the crime of vagrancy, was sentenced to a term of 180 days in the city jail of Los Angeles. It appeared that for the past seven years said William Lacey has been under the constant care of a physician because of organic heart trouble. It also appeared that since his incarceration in the city jail he has had two severe attacks of heart failure and that his life seems to be in peril. A letter on file from Dr. R. V. Day of Los Angeles reads as follows: "I desire to state that I have this day examined a prisoner in the city jail to determine his physical condition from the standpoint of his health and disease as to whether his remaining there will seriously endanger his life. I found him an extremely neurotic individual, suffering from chronic heart trouble of many years' duration, with an acute exacerbation, which seriously jeopardizes his health and life, and I deem it an imperative necessity because of his serious condition that he be released at once, as his incarceration may prove fatal at any moment. Dated December 21, 1910." Acting Governor Porter granted the said William Lacey a pardon.

REGULAR ORDER OF BUSINESS.

By direction of the President of the Senate, the Secretary of the Senate read sections of the Constitution of the State of California and sections of the Political Code of the State, which provide for the two branches of the Legislature meeting in joint convention for the purpose of canvassing the votes cast for Governor and Lieutenant Governor, as follows:

Of Article V of the Constitution:

Section 4. The returns of every election for Governor shall be sealed up and transmitted to the seat of government directed to the Speaker of the Assembly, who shall, during the first week of the session, open and publish them in the presence of both houses of the Legislature. The person having the highest number of votes shall be Governor; but in case any two or more have an equal and highest number of votes, the Legislature shall, by joint vote of both houses, choose one of such persons so having an equal and the highest number of votes for Governor.

Section 15. A Lieutenant Governor shall be elected at the same time and places, and in the same manner, as the Governor, and his term of office and his qualifications of eligibility shall also be the same. He shall be President of the Senate, but shall have only a casting vote therein. If, during a vacancy of the office of Governor, the Lieutenant Governor shall be impeached, displaced, resign, die, or become incapable of performing the duties of his office, or be absent from the State, the President pro tempore of the Senate shall act as Governor until the vacancy be filled or the disability shall cease. The Lieutenant Governor shall be disqualified from holding any other office except as specially provided in this Constitution, during the term for which he shall have been elected.

Section 1292. When an election has been held to fill the office of Governor or Lieutenant Governor, the clerk of each county, in addition to the abstract made for transmission to the Secretary of State, must, as soon as the statement of the vote of his county is made out and entered upon the records of the boards of supervisors, make two certified abstracts of so much thereof as relates to the vote given for such officers.

Section 1293. The clerk must seal up each abstract separately, and endorse thereon "Election Returns for Governor and Lieutenant Governor."

Section 1294. He must at once direct one copy to the Speaker of the Assembly next to meet, address it to Sacramento, California, and deposit it, postpaid, in the postoffice.

Section 1295. The other copy he must direct and address, in the same manner, and at once deliver it to a member elect of the Legislature, or to a Senator who holds over; and the person to whom it is so directed must deliver it to the Speaker on or before the second day next after his election.

Section 1296. The returns for election for Governor and Lieutenant Governor must, during the first week of the session, be opened, canvassed, and the result declared by the Speaker of the Assembly, in presence of both houses.

Section 1297. No declaration of the result, commission or certificate, must be withheld on account of any defect or informality in the return of any election if it can with reasonable certainty be ascertained from such return what office is intended, and who is elected thereto.

15. Inaugural address.

In the political struggle from which we have just emerged the issue was so sharply defined and so thoroughly understood that it may be superfluous for me to indicate the policy which in the ensuing four years will control the executive department of the State of California. The electorate has rendered its decision, a decision conclusive upon all its representatives, but while we know the sort of government demanded and decreed by the people, it may not be amiss to suggest the means by which that kind of administration may be attained and continued. "Successful and permanent government must rest primarily on recognition of the rights of men and the absolute sovereignty of the people. Upon these principles is based the superstructure of our republic. Their maintenance and perpetuation measure the life of the republic." It was upon this theory that we undertook originally to go to the people; it was this theory that was adopted by the people; it is upon this theory, so far as your Executive is concerned, that this government shall be henceforth conducted. The problem first presented to us, therefore, is how best can the government be made responsive to the people alone? Matters of material prosperity and advancement, conservation of resources, development of that which lies within our borders, are easy of solution when once the primal question of the people's rule shall have been determined. In some form or other nearly every governmental problem that involves the health, the happiness, or the pros-

perity of the State has arisen, because some private interest has intervened or has sought for its own gain to exploit either the resources or the politics of the State. I take it, therefore, that the first duty that is mine to perform is to eliminate every private interest from the government, and to make the public service of the State responsive solely to the people. The State is entitled to the highest efficiency in our public service, and that efficiency I shall endeavor at all times to give. It is obvious that the requisite degree of efficiency can not be attained where any public servant divides his allegiance between the public service and a private interest. Where under our political system, therefore, there exists any appointee of the Governor who is representing a political machine or a corporation that has been devoting itself in part to our politics, that appointee will be replaced by an official who will devote himself exclusively and solely to the service of the State. In this fashion, so far as it can be accomplished by the Executive, the government of California shall be made a government for the people. If there are in existence now any appointees who represent the system of politics which has been in vogue in this State for many years and who have divided their allegiance between the State and a private interest of any sort, or if there be in existence any Commission of like character, and I can not alone deal with either, then I shall look to the Legislature to aid me in my design to eliminate special interests from the government, and to require from our officials the highest efficiency and an undivided allegiance; and I shall expect such legislative action to be taken as may be necessary to accomplish the desired result.

In pursuing this policy, so long as we deal only with the ward-heeler who holds a petty official position as a reward for political service, or with the weak and vacillating small politician, we will have the support and indeed the commendation of all the people and all the press; but as we go a little higher, with firm resolve and absolute determination, we will begin to meet with opposition here and there to our plan, and various arguments, apparently put forth in good faith for the retention of this official or that, will make their appearance; and finally when we reach, if we do, some representative, not only of the former political master of this State, the Southern Pacific Company, but an apostle of "big business" as well (that business that believes all government is a mere thing for exploitation and private gain), a storm of indignation will meet us from all of those who have been parties to or partisans of the political system that has obtained in the past; and particularly that portion of the public press which is responsive to private interest and believes that private interest should control our government, will, in mock indignation and pretended horror, cry out against the desecration of the public service and the awful politics which would permit the people to rule. Much, doubtless, will be said of destructiveness, of abuse of power, of anarchistic tendencies and the like, and of the astounding and incomparable fitness of him who represents "big business" to represent us all. And in the end it may be that the very plan, simple, and direct to which we have set ourselves in this administration will be wholly distorted, and will be understood only by those who, with a singleness of purpose, are working for a return of popular government in California.

It matters not how powerful the individual may be who is in the service of the State, nor how much wealth and influence there may be behind him, nor how strenuously he may be supported by "big business" and by all that has been heretofore powerful and omnipotent in our political life, if he be the representative of Southern Pacific politics, or if he be one of that class who divides his allegiance to the State with a private interest and thus impairs his efficiency, I shall attack him, and I shall strive in respect to such an one in exactly the same way as with his weaker and less powerful accomplices. I prefer, as less dangerous to society, the political thug of the water front to the smugly respectable individual in broadcloth of pretended respectability who, from ambush, employs and uses that thug for his selfish political gain.

In the consummation of our design at last to have the people rule, we shall go forward, without malice or hatred, not in animosity or personal hostility, but calmly, coolly, pertinaciously, unswervingly and with absolute determination, until the public service reflects only the public good and represents alone the people.

THE INITIATIVE, REFERENDUM, AND RECALL.

When, with your assistance, California's government shall be composed only of those who recognize one sovereign and master, the people, then is presented to us the question of, How best can we arm the people to protect themselves hereafter? If we can give to the people the means by which they may accomplish such other reforms as they desire, the means as well by which they may prevent the mis-use of the power temporarily centralized in the Legislature, and an admonitory and precautionary measure which will ever be present before weak officials, and the existence of which will prevent the necessity for its use, then all that lies in our power will have been done in the direction of safeguarding the future and for the perpetuation of the theory upon which we ourselves shall conduct this government. This means for accomplishing other reforms has been designated the "Initiative and the Referendum," and the precautionary measure by which a recalcitrant official can be removed is designated the "Recall." And while I do not by any

means believe the initiative, the referendum, and the recall are the panacea for all our political ills, yet they do give to the electorate the power of action when desired, and they do place in the hands of the people the means by which they may protect themselves. I recommend to you, therefore, and I most strongly urge, that the first step in our design to preserve and perpetuate popular government shall be the adoption of the initiative, the referendum, and the recall. I recognize that this must be accomplished, so far as the State is concerned, by constitutional amendment. But I hope that at the earliest possible date the amendments may be submitted to the people, and that you take the steps necessary for that purpose. I will not here go into detail as to the proposed measures. I have collected what I know many of your members have,—the various constitutional amendments now in force in different states,—and at a future time, if desired, the detail to be applied in this State may be taken up. Suffice it to say, so far as the recall is concerned, did the solution of the matter rest with me, I would apply it to every official. I commend to you the proposition that, after all, the initiative and the referendum depend on our confidence in the people and in their ability to govern. The opponents of direct legislation and the recall, however they may phrase their opposition, in reality believe the people can not be trusted. On the other hand, those of us who espouse these measures do so because of our deep-rooted belief in popular government, and not only in the right of the people to govern, but in their ability to govern; and this leads us logically to the belief that if the people have the right, the ability and the intelligence to elect, they have as well the right, ability and intelligence to reject or to recall; and this applies with equal force to an administrative or a judicial officer. I suggest, therefore, that if you believe in the recall, and if in your wisdom you desire its adoption by the people, you make no exception in its application. It has been suggested that by immediate legislation you can make the recall applicable to counties without the necessity of constitutional amendment. If this be so, and if you believe in the adoption of this particular measure, there is no reason why the Legislature should not at once give to the counties of the State the right which we expect to accord to the whole State by virtue of constitutional amendment. Were we to do nothing else during our terms of office than to require and compel an undivided allegiance to the State from all its servants, and then to place in the hands of the people the means by which they could continue that allegiance, with the power to legislate for themselves when they desired, we would have thus accomplished perhaps the greatest service that could be rendered our State. With public servants whose sole thought is the good of the State the prosperity of the State is assured, exaction and extortion from the people will be at an end, in every material aspect advancement will be ours, development and progress will follow as a matter of course, and popular government will be perpetuated.

THE RAILROAD QUESTION.

For many years in the past shippers, and those generally dealing with the Southern Pacific Company, have been demanding protection against the rates fixed by that corporation. The demand has been answered by the corporation by the simple expedient of taking over the government of the State; and instead of regulation of the railroads, as the framers of the new Constitution fondly hoped, the railroad has regulated the State.

To Californians it is quite unnecessary to recall the motives that actuated the framers of the new Constitution when Article XII was adopted. It was thought that the Railroad Commission thereby created would be the bulwark between the people and the exactions and extortions and discriminations of the transportation companies. That the scheme then adopted has not proved effective has become only too plain. That this arose because of the individuals constituting the Railroad Commission, is in the main true, but it is also apparent there has been a settled purpose on the part of the Southern Pacific Company not only to elect its own Railroad Commission, but also whenever those Commissioners made any attempt, however feeble, to act, to arrest the powers of the Commission, and to have those powers circumscribed within the narrowest limits. All of us who recall the adoption of the new Constitution will remember that we then supposed the most plenary powers were conferred upon the Commission. It has been gravely asserted of late, however, by those representing the Railroad Company, and they insist that in the decisions of our courts there is foundation for the assertion, that the Constitution does not give the Commission power to fix absolute rates. In my opinion this power is conferred upon the Commission, and in this I am upheld by the Attorney General of the State, and by the very able and eminent attorneys who represent the various traffic associations.

The people are indeed fortunate now in having a Railroad Commission of ability, integrity, energy, and courage. I suggest to you, and I recommend, that you give to the Commission the amplest power that can be conferred upon it. The President of the Railroad Commission, Mr. John M. Eshleman, in conjunction with Attorney General Webb, Senator Stetson, and others, in all of whom we have the highest confidence, has been at work preparing a bill which shall meet the requirements of the case, and I commend to your particular attention this instrument.

I would suggest that an appropriation of at least \$75,000 be made for the use of the Commission that it may, by careful hearing and the taking of evidence, determine

the physical value of the transportation companies in the State of California, and that the Commission may have the power and the means to determine this physical value justly and fairly, and thereafter ascertain the value of improvements, betterments and the like, and upon the values thus determined may fix the railroad rates within the State of California.

It is asserted that some ambiguity exists in that portion of the language of Section 22 of Article XII of the Constitution, which fixes the penalty when any railroad company shall fail or refuse to conform to rates established by the Commission or shall charge rates in excess thereof, and it is claimed that the use of the last phrase "or shall charge rates in excess thereof" excludes the power to punish discrimination by the railroad companies. The rational construction of the language used can lead to no such conclusion; but if you believe there is any ambiguity in the constitutional provision as it now exists, or any doubt of the power conferred by it upon the Railroad Commission, I would suggest that this matter be remedied by a constitutional amendment. In no event, however, should action be deferred in reference to needed legislation and that herein suggested. It is not unlikely that the ingenuity of those who represent the railroad companies will pretend, and find some advocates in this, that all legislative action should await the amendment of the Constitution. I trust that you will not permit this specious plea to prevail, but that you will at once accord the power to the Commission that is designed by the bill referred to.

I beg of you not to permit the bogie man of the railroad companies, "Unconstitutionality," to deter you from enacting the legislation suggested, if you believe that legislation to be necessary; and I trust that none of us will be terrified by the threat of resort to the courts that follows the instant a railroad extortion is resented or attempted to be remedied. Let us do our full duty, now that at last we have a Railroad Commission that will do its full duty, and let us give this Commission all the power and aid and resources it requires; and it, thereafter, legitimate work done within the law and the Constitution shall be nullified, let the consequences rest with the nullifying power.

AMENDMENT OF DIRECT PRIMARY LAW.

California took a long step toward popular government when the direct primary law was enacted. The first experiment under the direct primary law has been made, and despite the predictions of the cynical and the critical, the law has been a success, and has come to stay. It may, however, be improved in many respects, and so recent has been the discussion of the minor imperfections of the act that they are familiar to us all; and I think the desire is general to remedy those defects. When the law shall have been amended and its imperfections corrected, and when it shall have been made less difficult for one to become a candidate for public office (and this should be one of the designs of amendment, I think), the important question of dealing with the candidacy for United States Senator remains. Of course, the Constitution of the United States requires that United States Senators shall be elected by state legislatures. Notwithstanding the popular demand expressed now for a quarter of a century that United States Senators should be elected by direct vote of the people, we have been unable to amend the Federal Constitution; but the people in more than half the states are striving to effect the same result by indirection. The result that our people, in common with those of most of the states, are seeking is to have the people themselves elect United States Senators. I do not think it is extravagant to say that nine electors out of ten in California desire the electorate directly to choose United States Senators, and if they possessed the power they would remove the selection wholly from the Legislature. The present primary law in its partisan features does not attain the desired result. And the present law, in its provision relating to United States Senators, is at variance with the wishes of an overwhelming majority of our people. Some of those who desire direct election may wish a selection made by parties, while others would eliminate all partisan features in such an election; yet all wish a selection by the whole State by plurality; and the present provisions of the primary law meet with the approval of none who really wish the election of United States Senator by direct vote. I suggest to you, therefore, that the present law be amended so that there be a state-wide advisory vote upon United States Senator and the logical result of a desire to elect United States Senators by direct vote of the people is that that election shall be of any person who may be a candidate, no matter what party he may be affiliated with. For that reason I favor the Oregon plan, as it is termed, whereby the candidate for this office, as for any other office may be voted for, and by which the candidate receiving the highest number of votes may be ultimately selected. If, in your wisdom, you believe we should not go to the full extent expressed in my views, then, in any event, the primary law should make the vote for the United States Senator state-wide and the vote of the whole State, irrespective of districts, controlling.

SHORT BALLOT.

The most advanced thought in our nation has reached the conclusion that we can best avoid blind voting and best obtain the discrimination of the electorate by a short ballot. A very well known editor in our State, during a recent lecture at

Stanford University, challenged the faculty of that great institution to produce a single man who had cast an intelligent vote for the office of State Treasurer, and none was produced. Fortunately, our State Treasurer is the highest type of citizen and official. The reason the challenge could not be met was that, in the hurry of our existence and in the engrossing importance of the contests for one or two offices, we can not or do not inform ourselves sufficiently regarding the candidates for minor offices. Again, we elect some officials whose duties are merely clerical or ministerial, and whose qualifications naturally can not be well understood. Of course, it is undesirable and indeed detrimental, that we should elect officials of whom we know nothing and concerning whom the electorate can not learn and can not discriminate. It is equally undesirable that those occupying merely clerical positions should be voted for by the entire electorate of the State. The result of a long ballot is that often candidates for minor offices are elected who are unfit or unsatisfactory. This conclusion, I think, has been reached by students, and the farseeing in every state in the Union. If we can remedy this condition it is our duty to do so, and it is plain that the remedy is by limiting the elective list of offices to those that are naturally conspicuous. One familiar with the subject recently said: "The little offices must either go off the ballot and be appointed, no matter how awkwardly, or they must be increased in real public importance by added powers until they rise into such eminence as to be visible to all the people. That candidates should be conspicuous is vital. The people must be able to see what they are doing; they must know the candidates, otherwise they are not in control of the situation, but are only going through the motions of controlling."

The Supreme Court of the State has asked that the Clerk of the Supreme Court, now elective, shall be made appointive. It is eminently just that this should be so. It is quite absurd that the people of an entire state should be called upon to vote for a clerk of the Supreme Court. The office of State Printer is merely administrative. Presumably, an expert printer is selected to fill this position, and in the selection of an expert, no reason at all exists for the entire electorate selecting that particular expert. The Surveyor General, likewise, performs merely ministerial duties, presumably is only an expert, and his selection should be by appointment rather than election. The Superintendent of Public Instruction, an expert educator, is in the same category. The government of the United States is conducted with all of its departments with only two elective officers, the President and Vice-President. The President has surrounding him a Cabinet, the members of which perform all of the duties that are ministerial in character. The Treasurer of the State of California performs duties akin to those of the Secretary of the Treasury of the United States. He does nothing initiative in character, and his office could better be filled by appointment than election. The Secretary of State is in reality merely the head clerk of the State, and as a clerk of the Supreme Court may be better selected by the Supreme Court itself; so the Secretary of State, as the chief clerk of the State, may be better selected by the head of the State. The Attorney General could, in like fashion, be appointed, and if appointed his office could be made the general office of all legal departments of the State. Every attorneyship of the State that now exists, of commissions, and boards, and officials, could be put under his control, and a general scheme of State Legal Department could thus be successfully evolved—a department economical, efficient, and permanent, and even non-partisan in its character, if desired.

Were these various officials appointed by the Governor, the chief officer of the State could surround himself with a cabinet like the cabinet of the Chief Executive of the nation, and a more compact, perhaps more centralized and possibly a more efficient government, established. I would leave the Controller an elective officer because, theoretically at least, the Controller is a check upon the other officials of the State, and thus should be independent. Were these suggestions carried out, the State ballot would consist of a Governor, Lieutenant Governor, Controller, members of the Judiciary, and members of the Legislature. Of course, any change we might make as herein suggested could not operate upon officials now in office or during any of our terms.

I recognize that the reform here suggested is radical and advanced, but I commend it to your careful consideration.

OTHER BALLOT REFORM.

All of the parties in the State of California are committed to the policy of restoring the Australian ballot to its original form; and, therefore, I merely call to your attention that restoration as one of the duties that devolves upon us because of party pledges.

NON-PARTISAN JUDICIARY.

And the return of the Australian ballot to the form which first we adopted in this State provides an easy mode for the redemption of the promises that have been made in respect to non-partisan judiciary. With the party circle eliminated, and with the names of the candidates for office printed immediately under the designation of the office, when upon the ballot the title of the Judiciary is reached, the names of all the candidates may be printed without any party designation follow-

ing those names, and in this fashion all of the candidates for judicial position will be presented to the people with nothing to indicate the political parties with which they have been affiliated.

COUNTY HOME RULE.

One of the most vexatious subjects with which legislatures have to deal is respecting classification, salaries, etc., of the various counties. The astonishing amount of time occupied by our Legislature in county government bills can only be understood by those who have been familiar with legislative work. I quote from a report by Controller Nye upon the subject:

"The first Legislature after the adoption of the Constitution commenced by making ten classes of counties, which number soon increased to more than forty, and at the present time there are fifty-eight classes, exactly equaling the number of counties.

"If there were no other evidence of the folly of trying to legislate on county salaries by general laws, this would be conclusive. But the change of these general laws to meet the supposed needs of different counties has been incessant. In the legislative session of 1905 there were forty-five amendments to the salary schedules of as many counties; in 1907 there were fifty-seven such amendments, one for every county then existing, and in 1909 there were fifty.

"So great are the evils of this form of legislation that we deem the only permanent remedy for them to be the submission and adoption of an amendment which will permit each county, proceeding along the same general lines as those prescribed for cities, to draft its own county government act, subject to ratification by the Legislature. The amendment should enumerate the subjects which may be embraced in these county government acts, or county charters, so framed, and they should include the number and compensation of officers, the granting or withholding of fees, the determination whether the county board of supervisors shall be elected by districts or at large, also the determination whether other county officers shall be elected or appointed, and such other similar matters of local concern as will not interfere with the operation of the general plan of State Government."

I quite agree with the views expressed by our Controller, and adopt his recommendation. It is but just and proper that counties should rule themselves just as cities do, and if this be accomplished we will have succeeded in taking from the Legislature perhaps a most vexatious subject, and one with which of necessity it can not deal oftentimes with intelligence, and we will have saved to the Legislature and the State the immense amount of time that is now expended by the Legislature upon the subject. Of course, care must be exercised in any change that practical uniformity is preserved.

CIVIL SERVICE AND THE MERIT SYSTEM

In the first subject with which I have dealt, I defined clearly my attitude in regard to public service. Too often it has occurred that appointments to the public service have been made solely because of political affiliations or as a reward for political service. It is a design of the present administration to put in force the merit system, and it is our hope to continue that system by virtue of a civil service enactment. The committee recently appointed by the Republican State Central Committee presented an act, covering the subject, which I commend to you.

CONSERVATION.

In the abstract all agree upon the policy of conservation. It is only when we deal with conservation in the concrete that the enforcement of the doctrine enunciated originally by Gifford Pinchot and Theodore Roosevelt, that we find opposition. Conservation means development, but development and preservation; and it would seem that no argument should be required on the question of preserving, so far as we may, for all of the people, those things which naturally belong to all. The great natural wealth of water in this State has been permitted, under our existing laws and lack of system, to be misappropriated, and to be held to the great disadvantage of its economical development. The present laws in this respect should be amended. If it can be demonstrated that claims are wrongfully or illegally held, those claims should revert to the State. A rational and equitable code and method of procedure for water conservation and development should be adopted.

REFORMATORY FOR FIRST OFFENDERS

Humanity requires that we should provide a reformatory for first offenders. All of us are agreed upon this matter, and your wisdom will determine the best mode of its consummation.

EMPLOYERS' LIABILITY LAW.

Upon the righteousness of an Employers' Liability Law, no more apt expression can be found than that of ex-President Roosevelt on last Labor Day. He said.

"In what is called 'Employers' Liability' legislation, other industrial countries have accepted the principle that the industry must bear the monetary burden of its human sacrifices, and that the employee who is injured shall have a fixed and definite sum. The United States still proceeds on an outworn and curiously improper principle, in accordance with which it has too often been held by the courts that the frightful burden of the accident shall be borne in its entirety by the very person least able to bear it. Fortunately, in a number of states—in Wisconsin and in New York, for instance—these defects in our industrial life are either being remedied or else are being made a subject of intelligent study, with a view to their remedy."

In this State all parties stand committed to a just and adequate law whereby the risk of the employment shall be placed not upon the employee alone, but upon the employment itself. Some new legal questions will be required to be solved in this connection, and the fellow servant rule now in vogue in this State will probably be abrogated, and the doctrine of contributory negligence abridged. It is hoped that those in our State who have given most study to this subject will soon present to you a comprehensive bill, and when this shall have been done the matter will again be made a subject of communication by me.

I have purposely refrained to-day from indulging in panegyrics upon the beauty, grandeur, wealth and prosperity of our State; or from solemnly declaring that we will foster industries, and aid in all that is material. It goes without saying that, whatever political or other differences may exist among our citizens, all are proud of California, its unbounded resources, its unsurpassed scenic grandeur, its climatic conditions that compel the wondering admiration of the world; and all will devotedly lend their aid to the proper development of the State, to the protection and preservation of that which our citizens have acquired, and that which industrially is in our midst. Ours, of course, is a glorious destiny, to the promotion and consummation of which we look forward with pride and affection, and to which we pledge our highest endeavor. Hand in hand with that prosperity and material development that we foster, and that will be ours practically in any event, goes political development. The hope of governmental accomplishment for progress and purity politically is with us in this new era. This hope and wish for accomplishment for the supremacy of the right and its maintenance, I believe to be with every member of the Legislature. It is in no partisan spirit that I have addressed you; it is in no partisan spirit that I appeal to you for aid. Democrats and Republicans alike are citizens, and equal patriotism is in each, and your aid, your comfort, your highest resolve and endeavor, I bespeak, not as Republicans or Democrats, but as representatives of all the people of all classes and political affiliations, as patriots indeed, for the advancement and progress, and righteousness and uplift of California.

May God, in His mercy, give us strength and courage for the right.

The Clerk shall post, in a conspicuous place in the chamber, a daily statement of the bills on the General File, setting forth the order in which they were filed, and specifying the alterations arising from the disposal of business each day.

14. *Order of Making Special File.*

The Clerk shall, from time to time, make up a file, to be known as the Special File, on which he shall place bills relating to appropriations for the support of the state government and state institutions, revenue, election laws and constitutional amendments, in the order named, and in the order in which the same may be reported to the Assembly, and he shall place no other bills thereon, nor shall any bill on the General File be substituted for any bill thereon.

A Standing Committee.

A Select Committee.

38 Calling Members to Order When Transgressing Rules

If any member, in speaking or otherwise, transgresses the rules of the House, the Speaker shall, or any member may, call to order; in which case the member so called to order shall immediately sit down, unless permitted to explain; and if called to order by a member, such member shall immediately state the point of order. If the point of order be sustained by the Chair, the member shall not be allowed to proceed, but if it be not sustained, then he shall be permitted to go on. Every such decision from the Chair shall be subject to an appeal to the House, but no discussion of a question of order shall be allowed, unless an appeal be taken from the decision of the Chair.

39 Speaker to Decide Who is Entitled to the Floor.

When two or more members shall rise at once, the Speaker shall name the member who is first to speak.

40. Order in Speaking to Questions.

Every member, when he speaks, shall, standing in his place, address "Mr. Speaker," and when he has finished he shall sit down. No member shall speak more than twice during the consideration of any one question, of whatever nature, on the same day and at the same stage of proceedings, without leave being granted, except the author of a bill or resolution, or mover of a question, who shall have the right to close the debate. No member shall be allowed to speak more than thirty (30) minutes upon any question, except by leave of the House.

41. Called to Order for Offensive Words in Debate.

If any member be called to order for offensive words spoken in debate, the person calling him to order shall report the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to censure of the House, for language used in debate, if any member has spoken or other business has intervened after the words spoken and before exception to them shall have been taken.

Any member may rise to explain a matter personal to himself, with leave of the Chair, but shall not discuss a question in such explanation.

43 Motions to be Stated by Speaker and if Desired Shall be Reduced to Writing, or May be Withdrawn

No motion shall be debated until the same be seconded and distinctly announced by the Speaker; and it shall be reduced to writing, if desired by the Speaker, or any member, and be read by the Clerk, before the same shall be debated. A motion may be withdrawn, by leave of the House, at any time before amendment or decision.

44. Motion to Adjourn.

A motion to adjourn shall always be in order, except during roll call. The Clerk shall enter on the Journal the name of any member moving an adjournment, also the hour at which the motion was made and adjournment taken.

When a motion is made and seconded to adjourn, it shall be in order for the Speaker, before putting the question, to permit any member to state any fact to the House relating to the condition of the business of the House which would seem to render it improper to adjourn at that time. Such statement, however, shall not be

debatable, and such statement or statements shall not, in any case, occupy more than two minutes.

Concurrent resolutions for adjournment *sine die* shall in all cases, whether originating in the House or coming from the Senate, be referred to the Committee on Ways and Means. A motion to strike out the enacting clause of a bill shall have preference over a motion to amend, and, if carried, shall be considered equivalent to its rejection. A dilatory motion shall not be considered intervening business within the meaning of parliamentary usage.

46. Previous Question.

The previous question shall be in this form: "Shall the main question be now put?" And its effect, when sustained by a majority of the members present, shall be to put an end to all debate and bring the House to a vote on the question or questions before it.

47. Questions of Order After Previous Question is Ordered.

All incidental questions of order arising after a motion is made for the previous question, and pending such motion or previous question, shall be decided (whether on appeal or otherwise) without debate; *provided*, that after the previous question shall have been ordered, ten minutes shall be allowed for explanation of the matters covered by the previous question, of which five minutes shall be given to the member moving the previous question, and five minutes to those opposed thereto.

48. Previous Question Demanded.

The previous question shall only be put when demanded by three members.

49. Question Indefinitely Postponed.

When a question is postponed indefinitely, the same shall not again be introduced during the session.

50. Division of Questions.

Any member may call for a division of the question, which shall be divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the House. A motion to strike out being lost, shall preclude neither a motion to add to nor a motion to strike out and insert.

51. Substitute.

A substitute shall be deemed and held to be an amendment, and be treated in all respects as such.

52. Subjects Different from the One Under Consideration.

No motion or proposition on a subject different from that under consideration shall be admitted as an amendment.

53. Printing of Bills.

Five hundred copies of all bills and as many additional copies as the House shall order shall be printed. The Sergeant-at-Arms shall be required to certify to the reception by the House of all such printed matter, and the quantity thereof.

56. Filling Blanks.

In filling up blanks the least sum and shortest time shall be first put.

57. Priority of Business.

All questions relating to the priority of business shall be decided without debate.

58. Reading of Papers.

When the reading of a paper is called for, except petitions, and the same is objected to by a member, such reading shall be determined by a vote of the House, without debate.

59. Notice of Reconsideration.

On the day succeeding that on which a final vote on any bill or resolution has been taken, said vote may be reconsidered on the motion of any member; *provided*, notice of intention to move such reconsideration shall have been given on the day on which such final vote was taken, by a member voting with the majority; and it shall not be in order for any member to move a reconsideration on the day on which such final vote was taken. Said motion of reconsideration shall have precedence over every other motion, except a motion to adjourn. No notice of reconsideration shall be in order on the day preceding the last day of the session. No motion to reconsider shall be adopted, except upon a roll call, and it shall require forty-one votes to adopt the motion.

60. Elections by House.

In all cases of election by the House the vote shall be taken *viva voce*.

61. Calling Ayes and Noes.

The ayes and noes shall be taken on the final passage of all bills, and when called for by three members on other questions, and every member within the bar of the House, when his name is called, shall (unless for special reasons he be excused) declare openly, and without debate, his vote. In taking the ayes and noes, and upon call of the House, the names of the members shall be taken alphabetically, and the Clerk shall enter on the Journal the names of those demanding the ayes and noes.

62. Members at Clerk's Desk.

No member or other person shall remain by the Clerk's table while the ayes and noes are being called, or while the votes are being counted.

63. Voting on Question When Interested.

No person shall vote on any question in the result of which he is personally interested or involved.

64. Division and Count of House.

Upon a division and count of the House on any question, no person without the bar shall be counted.

65. Explaining or Changing Vote.

No member shall be allowed to explain his vote or discuss the question while the ayes and noes are being called, and no member shall be allowed to change his vote after the vote is announced from the chair.

66. Call of the House.

Upon a call of the House the names of the members shall be called over by the Clerk, and the absentees noted, after which the names of the absentees shall again be called over. The door shall then be shut, and those for whom no excuse or insufficient excuses are made, may, by order of those present, be taken into custody, as they appear, or may be sent for and taken into custody by the Sergeant-at-Arms wherever to be found, or by special messenger, to be appointed for that purpose. In the absence of a quorum, a majority of the members present may order a call of the House and compel the attendance of absentees in the manner above provided. No recess can be taken during a call of the House.

67. Suspending and Changing Rules.

No standing rule or order of the House shall be rescinded or changed without a vote of two thirds of the members of the Assembly, and one day's notice being given of the motion therefor; *provided*, that the Committee on Rules and Regulations may at any time, except during a roll call, report a temporary rule providing for the consideration of any bill on the files of the House belonging to either of the following classes:

1. Bills affecting the state government, its revenue, its various departments or commissions, or appropriations therefor.

Such temporary rule shall provide when a bill so selected shall be taken up for consideration, and the time when final vote shall be taken thereon and pending amendments thereto, if there be any.

It shall always be in order to call up for consideration such report. The same shall be subject to amendment by the House.

On the adoption of such temporary rule by the House by a two-thirds vote thereof, if the bill be on third reading, and by a majority vote of the members elected to the House, if otherwise, such bill shall thereupon be made the special order for the time fixed therein.

A rule of order may be suspended temporarily by a vote of two thirds of the members present, except that portion of Rule 6 relating to third reading of bills. A motion or resolution proposing to increase or diminish a standing committee shall not be adopted until the same has been referred to the Committee on Rules and Regulations.

The Committee on Rules and Regulations may also, at any time, report a temporary rule or regulation for the consideration of the business on the file, having regard to the condition of the business of the House. EXPLANATIONS OF VOTES.

The following explanations of votes were received, and ordered printed in the Journal:

By Mr. Griffin:

SACRAMENTO, CAL., January 10, 1911.

While conceding that there probably are other men within the ranks of the progressives in this State who could represent the great Commonwealth of California with greater vigor in the United States Senate than Judge Works, it seems to me that at this time the line of demarcation is clearly drawn between the progressives and the ultra-conservatives, and as I have ever been a consistent believer in popular government and progressive democracy, it is my duty to vote for the candidate that seems to be on that side of the line of demarcation. It is my sincere hope and desire that the present Legislature shall forever make it impossible for the present situation to recur, and this can be done by the enactment of the Oregon plan of choosing United States Senators, which I had the honor and privilege this day to introduce.

THOMAS F. GRIFFIN.

By Mr. Stuckenbruck:

Having always believed in the election of United States Senators by direct vote of the people, and as Works received the majority of such vote in my district, I deem it my duty to vote for Judge Works for United States Senator.

Respectfully,

J. W. STUCKENBRUCK.

Twenty-fourth District.

By Mr. Wilson:

In explanation of my vote for John D. Works for Senator from California in the United States Congress, I wish to say that my district cast for John D. Works a majority of its advisory vote for United States Senator. I favor the direct popular election of United States Senator, and under our present primary law the advisory vote so cast is the best information which I can obtain as to the wishes of my constituents in the matter of electing a United States Senator. In observance of that expressed wish I cast my vote for John D. Works.

L. H. WILSON.

By Mr. Coghlan:

Section 2 of the Act to regulate primary elections reads in part as follows: "The vote for candidates for United States Senators shall be an advisory vote for the

purpose of ascertaining the sentiment of the voters in the respective * * * Assembly District in the respective parties."

I believe that under the terms of section 1 of the primary election law, I am bound, unless I disregard the will of the good people of the Forty-first Assembly District, to vote for Albert G. Spalding for United States Senator. To do otherwise would be, in my humble opinion, a base repudiation of the law, and an evidence of flagrant disrespect to the wishes of my constituents. I have been too long honored by the people of my district to close my ears to their voices. They have cast my vote for me here. I know of nothing that I have oftener wished for than an expression of opinion by my own people on the many questions that have been here propounded in the last seven years, and I am content.

NATHAN C. COGHLAN.

By Mr. Slater:

I believe, and have always believed, in the election of United States Senators by direct vote of the people, and consider this step initial to the accomplishment of the final issue. Consequently, I vote for Judge Works. Let us now have the Oregon plan.

Respectfully,

HERBERT W. SLATER.

Fourteenth District

By Mr. Mendenhall:

Having always believed in the election of United States Senators by direct vote of the people, and as Works received the plurality of such vote in the State, I deem it my duty in the interests of good government to vote for Judge Works for United States Senator.

Respectfully,

J. L. MENDENHALL

By Mr. Walsh:

Believing the last state primary election gave the nearest expression possible toward a state-wide vote for United States Senator in casting a plurality vote for Judge Works, and as the Democratic platform, the platform of the party of which I have the honor to represent, expressed themselves in no uncertain terms as favoring the election of a United States Senator by direct vote of the people, I therefore cast my vote for Judge Works, feeling that I am carrying out the expressions of my party with the best means at hand.

EDWARD P. WALSH,

Assemblyman Thirty-seventh District

ADJOURNMENT.

At one o'clock and fifteen minutes P. M., on motion of Mr. Brown, the Assembly was declared adjourned until ten o'clock A. M. of Wednesday, January 11, 1911.

Resolution read and, on motion, adopted

By Mr. Joel:

Resolved, That the Honorable John D. Works, United States Senator-elect from the State of California, be invited to appear before, and address the members of this Joint Assembly.

Resolution read and, on motion, adopted.

The President of the Senate appointed Senator Boynton and Mr. Joel a committee to escort Hon. John D. Works, United States Senator-elect from the State of California, to the Joint Assembly.

The Sergeant-at-Arms announced the arrival of the committee with the Hon. John D. Works, United States Senator-elect from the State of California, at the bar of the Joint Assembly.

The President of the Senate presented the Hon. John D. Works, United States Senator-elect from the State of California, to the members of the Joint Assembly.

The Hon. John D. Works, United States Senator-elect from the State of California, addressed the Joint Assembly as follows, which address, upon motion of Senator Cutten, was ordered printed in the Journal:

ADDRESS OF HON. JOHN D. WORKS, UNITED STATES SENATOR-ELECT.

Members of the Legislature of the State of California: I thank you sincerely for the honor you have done me in electing me United States Senator. I am glad to be able to say to you, and to the people of California, that I accept the office absolutely free and independent. Free to do my duty as I see my duty, independent of any domination, control, or influence by any man, corporation, or private interest of any kind.

In a broader sense, I am not independent. I hope I appreciate the grave responsibilities you have imposed upon me by electing me to this great office. In meeting those responsibilities I need the help, advice, and support of all good citizens who have the welfare of the State and nation at heart. I have lived in the southern part of the State for nearly twenty-eight years. I think I know its conditions and needs fairly well. But the north is entitled to my services in its behalf as Senator, equally and as fully as is the south, and I shall endeavor to inform myself of its needs, so that I may the better serve the whole State without discrimination or favor.

I desire particularly to express my thanks to the Democratic members of this body who have given me their support. It is a hopeful and encouraging sign of the times, an evidence of the fact that good men in office are no longer ruled by partisanship, but are seeking to serve the interests of the people through the best medium that is available at the time.

I am not going to the United States Senate to serve the Republican party alone, but to serve the whole people of the State and nation.

I believe in political parties, but only as instruments to carry out the will of the people. When a party ceases to serve this purpose, it becomes a menace to the public welfare and a danger to our free institutions.

This is not the time or place to discuss political questions, and I am not going to detain you for any such purpose. But there are certain important, fundamental principles of government,—principles that affect every man, woman and child in this country, irrespective of their political ties or affiliations. I desire, in this presence, to declare my adherence to those principles and my determination to labor, as a public official, to establish and maintain them. They are set forth in the State platforms of both the leading parties of California. Therefore, they are not partisan in their nature. Among these may be mentioned the election of United States Senator by direct vote of the people; the conservation of our natural resources; the elimination of boss rule, dictation or influence, from our politics; and the removal of all private privilege seeking interests from private office, and the restoration of our government, State and National, to the people; a protective tariff measured by the difference between the cost of manufacture, or production, here and abroad, and the establishment of a permanent non-partisan commission to adjust such rates; the establishment and maintenance of a government owned or controlled line of steamers connecting the Pacific ports with the Panama Railway, and a government owned, or controlled, line of steamers between Pacific and Atlantic ports, through the Panama Canal, when completed; direct legislation, including the initiative, referendum, and recall, and the granting of the right of suffrage to women.

But to accomplish these reforms, and establish our government as a government of the people we must maintain the freedom and independence of the individual voter, and make his vote his own, exclude from public office any and every man that owes or acknowledges allegiance to the Southern Pacific Railroad Company, or any other corporation or private interests adverse to the interests of the State or nation.

One of the greatest and most imminent perils to this country is the power of the corporations, the trusts, the private interests, in our politics and public offices, seeking special privileges, and obtaining and holding them by corrupt and illegal means. The Governor of this State has declared his intention of casting out all these interests and influences from the offices of this State. He means to do just what he says he will do. In this laudable and patriotic purpose he should have the earnest support of every good citizen of the State, without regard to his political affiliations or beliefs.

Precisely the same thing should be done with respect to the Federal offices in this State. They are infested and corrupted by the servants of the interests. They come and go at the beck and call of their masters, without regard to the interests of the people. For one, it is my purpose to aid Governor Johnson in his efforts to redeem this great State of ours from corrupt politics, and to make merit and competency alone the basis of appointments to office, and I will do everything in my power to establish this same standard that he has raised in the making of Federal appointments, and to root out of the public service men who have secured their places as a reward for helping to degrade and pollute the politics of the State.

I am a progressive Republican. I believe in the principles that the insurgents in Congress are struggling to maintain in the interest of the people. It is my purpose to stand for progressive principles in legislation, no matter what may be its origin and without partisan bias. The people are crying out for justice and not for partisanship; for the establishment of the rights of the people, and not for the preservation or perpetuation of political parties. The party that fails to respond to this cry will be swept out of existence. I shall enter upon my duties as your Senator with a full understanding of this sentiment of the people of this State and the Nation, and act accordingly.

It is presented now in pursuance of the policy that has been announced by the various parties within the State of California and in pursuance of the policy that was outlined at the commencement of this administration. I am sure that I need not ask that it receive from you the closest scrutiny, and that it be taken up at the earliest moment consistent with your labors and compatible with a clear understanding of its provisions. That the necessity for action exists in the matter of fixing railroad rates within the State of California is demonstrated by the rates themselves, and that you may thoroughly understand this necessity and may realize the excessive charges with which the people of this State have been burdened, I quote to you some of the rates that I am informed are now being charged our people. No other demonstration than the mere recitation of these figures is necessary in behalf of any measure designed to afford the people of the State of California adequate relief from the extortion of the transportation companies.

The distance from River Station in the city of Los Angeles to San Pedro Station in San Pedro is twenty-three miles. The freight rates average on the San Pedro road for this distance about \$2.00 a ton. Merchandise in car load lots range in rates from 8½ cents to 15½ cents a hundred pounds, or from \$17.00 to \$30.00 a ton. These rates are identical with the rates charged between San Diego and Los Angeles, a distance of 120 miles. The rates charged from Los Angeles to San Pedro are practically eight or nine times higher than the average rates on all railroads throughout the United States. The effect of this is to put Los Angeles, instead of twenty-three miles from deep water, commercially more than one hundred and twenty miles from deep water; and this in the case of Los Angeles from its own harbor, within its own city limits. The rate I am informed on sugar from San Pedro to Los Angeles is \$2.00 a ton; from Honolulu to San Pedro \$1.75 per ton. To Imperial Valley, Los Angeles looks for much of the produce in the way of live stock, vegetables, and grain that it uses. The freight rates from the valley to Los Angeles are wholly out of proportion to those charged for like distances in other parts of the country.

From San Francisco to Fresno is approximately 200 miles, over practically level country. The first class rate, which covers less than car load movements of high class goods, like groceries, is 35 cents per hundred; the fourth class rate applying on canned goods, sugar, and other staples is 44 cents for less than a car load and 42 cents for one hundred pounds in car load lots. The rate to Bakersfield, first class, is 83 cents per hundred; and in the fourth class, including sugar, canned goods, and other similar staples shipped in car load quantities, the rate is 35 cents per hundred. Rail tariff from San Francisco to Boston or New York is only 85 cents per hundred pounds for car load shipments in fourth class, as compared with the charge of 42 cents for car loads fourth class for a haul of 200 miles from San Francisco to Fresno. Goods of the same class can be shipped to New York via steamship, including two transfers at the Isthmus of Panama, for 40 cents per hundred pounds, and this is two cents per hundred pounds less than the present car load rate on similar types

of goods for a haul of 200 miles from San Francisco to Fresno, and in the shipment to New York via steamer there are not only two transfers at the isthmus, but a haul over the Panama railway of approximately 50 miles.

I quote to you now some of the rates in this State, as compared with like distances in other parts of the United States. These comparisons have been very kindly furnished me by Mr. William R. Wheeler of San Francisco, and the comparisons are made of localities where the conditions are as nearly as possible similar with those existing in California. In this connection, it may be observed that the operation of railroads in the two great valleys in this State is as nearly ideal as it would be possible to find anywhere in the world. The valleys are practically level, climatic conditions are advantageous, and the oil fuel supply is cheap and close at hand.

STOCKTON TO FRESNO.

From Stockton to Fresno the short-line rail distance is 122 miles, and the average rate per ton per mile is 5.11 cents. The rate of the Union Pacific Railroad, Omaha to Havens, Neb., 115 miles, averages 3.92 cents; and by the same road, Kansas City to Junction City, Kas., 139 miles, 3.72 cents. The rates established as a maxima by the Railroad and Warehouse Commission of Minnesota for 120 miles average for the ten classes 2.83 cents per ton per mile; those established by the Railroad and Warehouse Commission of Illinois average 2.65 cents; and those established by the Railroad Commission of Iowa average 2.13 cents for the same distance.

STOCKTON TO GOSHEN.

From Stockton to Goshen the distance is 156 miles, the average per-ton-per-mile rate 4.62 cents. The rate from Kansas City, Mo., to Abilene, Kas., via the Union Pacific Railroad, 163 miles, averages 3.27 cents. From St. Louis to Tipton, Mo., 163 miles via the Missouri Pacific Railway, the rates average 3 cents. From Chicago to Rio, Wis., via the Chicago, Milwaukee and St. Paul Railway, 164 miles, 2.55 cents. The rates established respectively by the three commissions mentioned above, for a distance of 155 miles average 2.62 cents, 2.24 cents, and 2 cents per ton per mile.

STOCKTON TO BAKERSFIELD.

The distance, Stockton to Bakersfield, is 229 miles, the rates averaging 4.24 cents per ton per mile. From Omaha to Lexington, Neb., via the Union Pacific, 231 miles, the rates average 3.38 cents. Kansas City to Wilson, Kas., via the same road, 239 miles, the rates average 3.02 cents. St. Louis to Kingsville, Mo., via the Missouri Pacific Railway, 237 miles, the rates average 2.31 cents. The rates established by the above named commissions, for a distance of 230 miles, average, respectively, 2.28 cents, 1.72 cents, and 1.70 cents.

SACRAMENTO TO TEHAMA.

The distance from Sacramento to Tehama is 123 miles, and the rates average 5.17 cents per ton per mile. The rates established by the above state commissions for a distance of 125 miles average, respectively, 2.83 cents, 2.57 cents, and 2.14 cents.

SACRAMENTO TO RED BLUFF.

The distance from Sacramento to Red Bluff is 135 miles, and the rates average 5.20 cents per ton per mile. The rates, Kansas City to Junction City, Kas., via the Union Pacific Railroad, 139 miles, average 3.72 cents. The above mentioned state commission rates for a distance of 135 miles average, respectively, 2.74 cents, 2.43 cents, and 2.05 cents.

SACRAMENTO TO ANDERSON.

The distance is 158 miles and the rates average 5.36 cents per ton per mile. From Kansas City to Abilene, Kas., 163 miles, via the Union Pacific, the rates average 3.27 cents. From Chicago to Rio, Wis., 164 miles, via the Chicago, Milwaukee and St. Paul Railway, the rates average 2.55 cents. From St. Louis to Tipton, Mo., via the Missouri Pacific Railway the distance is 163 miles and the rates average 3 cents per ton per mile. The rates of the commissions above named for 160 miles average 2.61 cents, 2.21 cents, and 1.96 cents per ton per mile, respectively.

SACRAMENTO TO REDDING.

The distance is 169 miles and the average rate 5.4 cents per ton per mile. From Omaha to Wood River, Neb., on the Union Pacific, a distance of 169 miles, the rates average 3.4 cents. From Chicago to Calamus, Iowa, via the Chicago and North Western, distance 169 miles, the rates average 2.6 cents per ton per mile. The Minnesota, Illinois and Iowa rates for 170 miles average, respectively, 2.56 cents, 2.10 cents, and 1.91 cents per ton per mile.

Instances of the character herein set forth could be multiplied indefinitely. The few only are given so that this communication as illustrating the position we have taken on the necessity for action, may be of some aid to you in your labors.

The figures and comparisons that I give you furnish the argument in favor of legislation which, while enabling a fair income to be received by the railroads, will require of them just treatment of the shippers and producers of the State of California.

HIRAM W. JOHNSON,
Governor of the State of California.

GOVERNOR'S MESSAGE.

The following message from the Governor was taken up and read, and on motion of Mr. Cogswell, ordered printed in the Journal:

STATE OF CALIFORNIA, EXECUTIVE OFFICE,
SACRAMENTO, January 20, 1911.

To the Legislature of the State of California:

I call to your attention, so that you may apply the proper remedy for correction, the expedient by which, just prior to the commencement of your labors and mine, the public service of the State was appropriated.

December 1, 1910, the Superintendent of Banks of the State, upon a resignation which, apparently from the incomplete records, had been presented July 1, 1910, was reappointed, not for the remainder of his term, but for the "term prescribed by law," presumably four years from December 1, 1910.

The Commissioner of the Bureau of Labor, whose term after four years' service would have expired July 1, 1911, resigned on January 2, 1911, and thereupon a new Commissioner was appointed by the Governor for a period of four years from January 2, 1911.

The terms of the two Building and Loan Commissioners, who had served for a period of four years, would have expired January 7, 1911. On January 2, 1911, the two Commissioners, Al Lindley and Jacob Transue, resigned. Thereupon, in the place of Mr. Lindley, resigned, Mr. Transue was appointed for four years from January 2, 1911, and Mr. Curry was appointed in the place of Mr. Transue for four years from January 2, 1911.

By this simple short cut, these four important offices were appropriated in the last hours of my predecessor.

This sort of practice I believe to be detrimental to the public service, and beyond that, I believe it is beneath the dignity of the office of Governor to permit that office to be used for such purposes in the closing hours of the term of any incumbent.

I ask you, therefore, for such an Act as will prevent, in the future, any such appropriation of the public service and as will render it impossible for any Governor hereafter, by the simple expedient of having his appointees resign, to continue those appointees in office during the term of his successor.

I am told that in former administrations, appointments have been made in the last hours of the incumbent Governor, but in every instance these appointments were

made where vacancies existed or terms had expired. The method recently adopted, of resignations, and thus lengthening terms, has just been employed for the first time. It is my wish that such Act as you provide shall be operative upon the present incumbent of the office of Governor, and inasmuch as the inhibition will first be operative upon the present Governor, it ought to be apparent that our design is one solely for the benefit of the public service.

Respectfully submitted

HIRAM W. JOHNSON, Governor.

The clerk shall forthwith determine the sufficiency as to the number and genuineness of signatures of the petition. If the same be insufficient in these particulars, it shall be rejected, and if sufficient, the name of the person nominated therein shall be placed upon the official ballot as a candidate for the office for which he was nominated.

RESOLUTIONS.

The following resolutions were offered:

By Mr. Randall:

WHEREAS, There is a wide divergence in the form of bills introduced by members, as to the matters which have to do with typographical style, and

WHEREAS, It is desirable that engrossed bills should be uniform in this particular; now, therefore, be it

Resolved, That the Chief Clerk of this Assembly, in all bills and other printed matter ordered by this body, be directed to follow the usual typographical style at present in vogue in the State Printing Office, covering such items as capital letters, abbreviations, italicized words, hyphenating, and the like and further, be it

Resolved, That the Committee on Engrossed and Enrolled Bills of the Assembly be instructed to interpret Rule 32 of the Standing Rules of the Assembly in such manner as to recognize as a "true copy of the original" bill engrossment which may deviate from the original in these terms of typographical style

Resolution read and, on motion, adopted.

Also:

WHEREAS, Rule thirty-two (32) of the Standing Rules of the Assembly, in reciting the duties of the Committee on Engrossed and Enrolled Bills, provides that "said committee shall see that all bills are reported back in the order in which they were ordered engrossed"; and

WHEREAS, It is manifestly not desirable that a bill found by the committee to be incorrectly engrossed, and consequently sent to the printer for correction, should hold up the report of other bills correctly engrossed, now, therefore, be it

Resolved, That the Committee on Engrossed and Enrolled Bills be instructed so to interpret this rule as to require it to report back to the Assembly all correctly engrossed bills in the order in which they were ordered engrossed, and to report back all bills incorrectly engrossed and sent to the printer for correction as soon as such bills have been received from the printer correctly engrossed

Resolution read and, on motion, adopted.

Also:

WHEREAS, Bills are frequently introduced by members containing inadvertent and obviously careless errors in spelling and the like, which errors are sometimes overlooked in the printer's office and printed as if they had been written correctly; and

WHEREAS, Under our present custom it is necessary to get the bill reprinted so as to contain the original error, and afterward again get it reprinted so as to correct the error in conformity with the report of a select committee appointed to correct the same; and

WHEREAS, This procedure seems to involve a wholly unnecessary waste of time and money; therefore, be it

Resolved, That in such cases as those enumerated above, the bill be allowed to stand as received from the printer, provided that the introducer of the bill gives his consent to the printer's correction by signing or initialing his name on the margin of the printed bill opposite such correction this signed or initialed copy of the bill to be retained by the Committee on Engrossed and Enrolled Bills, and be it further

Resolved, That rule thirty-two (32) of the Standing Rules of the Assembly be interpreted in such manner as to permit the Committee on Engrossed and Enrolled Bills to recognize as a true copy of the original bill a printed bill which has had its obvious errors corrected by the printer, and O. K'ed by its introducer, as above provided.

Resolution read and, on motion, adopted

By Mr. Brown:

Resolved, That the Committee on State Prisons and Reformatory Institutions are hereby instructed and empowered to inquire whether prisoners confined in San Quentin and Folsom state prisons are now or have been within the last two years subjected to cruel and unusual punishments, and especially to what extent the strait-jacket is being used at said prisons upon prisoners confined in said prisons or in any of the reformatory institutions of this State for the purpose of discipline or punishment; that said committee make this inquiry during their first visit to said prisons; and said committee is hereby directed to report to the Assembly in writing the result of their investigations as soon as practicable. By Mr. Schmitt:

WHEREAS, Pursuant to our rules there is provided an "Order of Business", and WHEREAS, It is extremely difficult to follow that order of business if the members persist in asking leave to take up some other order of business, out of place, and

WHEREAS, It creates much extra work at the desk when such procedure is permitted, now, therefore, be it

Resolved, That the members be requested not to ask leave to take up any matter out of order, until the entire "Order of Business" for the day be completed, unless in matters of urgency.

Resolution read and, on motion, adopted

The commission shall likewise have the power to require one railroad company to switch to the industrial and team tracks upon its own line the cars of a connecting railroad and to prescribe the terms and compensation for such service.

The commission shall have the power under such uniform rules as it may make, to prescribe the amount of demurrage which shall be paid by any railroad or other transportation company for the failure on the part of any such company to furnish cars in accordance with such rules, and likewise the amount which any shipper shall pay to any such company for failure to use cars ordered by such shipper under such rules. MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received, read, and on motion of Mr. Cattell, ordered printed in the Journal:

To the Legislature of the State of California:

There has been introduced to-day in the Senate and Assembly a bill designated "An Act to authorize and regulate the employment of prisoners in the state prisons of this State, and to provide for the disposition of the products of their skill and labor," the design of which is to enable the prisoners in the state prisons to manufacture such articles, materials, and supplies as may be needed for any public use by the State, or any county or municipality, or that may be used or required in any state institution.

This message is sent that you may have before you the purpose of the bill and the reasons actuating Warden Hoyle, of San Quentin, in its preparation, and that have induced me to recommend it.

In the care and maintenance of convicts, the first problem that presents itself to the State is to furnish appropriate and rational employment, not only that prisoners may be kept from idleness, but that they may be taught during the period of their confinement useful trades, and may after the expiration of their terms be able to follow legitimate employment and to rehabilitate themselves. The most efficacious manner in which this humanitarian doctrine can be consummated is in regular hours of employment, in regular trades for those who are confined within the prisons, and by such regulations to provide the physical and mental activity necessary, and thus to afford the possibility, the hope, and the opportunity for ultimate regeneration.

The other reason why the proposed measure will be advantageous is upon the financial side. If permission to manufacture and produce the articles mentioned be accorded the state prisons in great measure will be self-supporting, and it is the hope of Warden Hoyle, based upon experience in other places,—and his hope seems to me justified,—that within a few years the state prisons of the State of California, under the plan suggested, will be wholly self-supporting, and will not require further aid of the government.

The objection to the manufacture of articles in the state prisons comes generally, and justly, I think, from the free labor of the State. The purpose of the bill that has been introduced is to permit only those articles to be manufactured which are used by the state, the county, or the municipality, and does not permit their sale privately.

The restrictions within the bill are such that prison labor shall not be brought in competition with free labor. The particular measure that has been introduced has been submitted to the San Francisco Labor Council, and has received the sanction of that body.

It is presented to you, therefore, with the full knowledge and approval of labor within the State of California.

The cost of maintaining the prisons of the State of California is, in round figures, something over half a million dollars per annum. If this cost can be met in any measure by the proposed plan, apparently it should commend itself to us all. Beyond this, if it meets the requirements first suggested, of furnishing the necessary activity physically and mentally to prisoners, and with the learning of useful trades or occupations, will enable prisoners better to care for themselves after their release an amply sufficient reason is presented for its passage. In order to carry out the proposed scheme, no appropriation is asked from the Legislature.

Two Acts are presented with the bill, which establish from the present earnings of the prison a fund which may be used in preparing for the manufacture and production of the articles named.

I might add that the scheme proposed, and indeed the bill as drawn, is fashioned upon the law that is now in force in the State of New York, and which has worked so beneficently there.

The bills and the facts set forth in this message are submitted for your consideration.

Respectfully,

HIRAM W. JOHNSON, Governor.

January 30, 1911.

ADDRESS ORDERED PRINTED IN THE JOURNAL.

On motion of Mr. Bohnett, the address of Mr. Beckett, on woman suffrage, was ordered printed in the Journal.

ADDRESS OF MR. BECKETT ON WOMAN SUFFRAGE

There stands at the great entrance to the American World—New York harbor—a statue entitled "Liberty Enlightening the World." We may well ask: What is liberty? To the prisoner in bonds liberty is the sundering of those bonds, to the slave under the sting of the master's lash freedom means the delivery from oppression; to the State of California, the great Golden State of this Union, freedom has come to mean the driving out from politics of corporate power; to the woman held in bond, as a household drudge through long centuries of prejudice and oppression, it is the taking of her into the political family, not only as a ministering angel, but as a wise counselor, whose development and protection can only be accomplished by giving her equal powers of development and usefulness. The immortal Patrick Henry voiced the universal desire for liberty by saying "Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery?" Then he cried: "As for me, give me liberty or give me death." The early American colonists voiced their sentiments by saying that taxation without representation is tyranny. The great Magna Charta of English liberty was wrung from King John because he could not stem the rising desire of the English people for representation. The great charter of American liberty, the immortal Declaration of Independence, declares that all men are possessed with certain inalienable rights among which are life, liberty, and the pursuit of happiness, and that to secure these rights governments are instituted, deriving their just powers from the consent of the governed. So long as woman continues to ask for the ballot she has not consented, and justice can never be reached until the ballot seals that consent. What has all this row been about, comprised in the recent elections for a Governor, for an unbiased Legislature, and for a progressive United States Senator? Governor Johnson well defined it, that the people may again resume the right of government guaranteed to them by the Constitution and laws of the United States. Every law which this Legislature shall write upon the statute books contains as its enacting clause, "We, the people of the State of California, do enact as follows." What people? All of the people? Oh, no, only male people. In computing the census of the United States, we proudly announce that the American republic contains nearly one hundred million people. Men—no, the list includes all the women, all the children, several millions of naturalized foreigners, several millions of negroes and a lesser horde of Japanese and Chinese; and the men include many paupers, many imbeciles as well as this vast number of naturalized foreigners whom we allow to vote and to help govern, God save the mark!—the other half of the adult people, known as American women. The penalty of the first sin was the loss of harmony. Only to the man who can give the keynote of pure harmony can woman perfectly respond. Perfect government is perfect harmony, in which the centrifugal and centripetal forces of civilization are so perfectly balanced, that the universe of matter swings forever through boundless space without the loss of a second in a million years, in response to that infinite self-poised mind whose soul is harmony. The first duty of a man is to be a searcher after truth. Truth is eternal. Truth will free any individual from prejudice and illusions. His next duty is self-mastery. That man who has reached such a degree of self-mastery as to desire only the supreme good of his fellows, and is willing to freely accord to them every privilege which he claims, has learned the law of perfect government in which every one's rights are secure, and there is no feeling of domination or of oppression, which latter term means slavery. Only the man who is willing to yield the same rights which he demands for himself is capable of perfect self-government, and of exercising a just rule over his fellows.

Greed for gold or lust for power has marked the course of every despot from Cain, who slew his brother, down through the ages until now. The soul's unquenchable longing for heaven is the best proof of its existence. Only the soul that has a vision of the good to be attained will ever reach out after it, and make that good thing its own. It is a law of attraction that what the mind holds it makes its own; hence the troubles, worries and all other illusions of life disappear and cease to exist for that soul who fills his thoughts with the good, the true, the real things of life. Heaven is but another name for harmony. Since everything in the universe goes by vibration, a certain rate of vibration producing a color, another rate a musical tone, another rate giving off heat, another light, another the electric current, the man who is master of himself, of his own vibrations, can play upon the responsive minds of others any tune he likes because the mind is like a harp with a thousand strings, responsive to any touch of a master hand.

Abraham Lincoln said "If every stroke of the master's lash shall be paid for in human blood the judgments of the Lord are true and righteous altogether." The fall of man from a condition of such Adamic perfection in the early dawn of creation that the morning stars sang together, and all the sons of God shouted for joy, has resulted in the loss to woman of that condition of equality in which

alone there is harmony. The penalty of the first sin was a loss of harmony found only in equality. The Lord said to the woman, "Thy desire shall be thy husband and he shall rule over thee." A clown once well said, "Woman was not taken from man's head to show that she was above him, she was not taken from his feet to show that she was beneath him, but she was taken from his side to show that she was equal with man, and there beneath his giant arm is the proper place for her to seek protection." Now, I may ask, does man protect woman? In uncivilized countries by making her his pack horse, his beast of burden, his slave. The man is the "heap big injun me", showing his so-called bravery by whipping his wife on the smallest provocation, compelling her to submit to his animal desires, and when satisfied spinning her with his foot, as he would any other of his dogs; selecting another woman as he would another dog, if she dies under his abuse. Nor is woman's condition so very much better in many of the so-called civilized countries. Lincoln struck the bonds from four millions of slaves, and the Constitution of the United States was thereupon amended, not to allow all of the adult ignorant negroes to vote, but only the male negroes, to vote, and help make and execute laws for the government of even our white American women, because, forsooth, this Government was founded on equal rights for all and special privileges to none. Equal rights to all did I say? Oh, no. Equal rights to all the male factors who rob women of the right to even help rule themselves. African slavery, that curse, went out in storm and stress, and blood, and Uncle Sam rewarded all the old male veterans by paying them a pension, thus practically putting many of the old boys on crutches, because by thus providing for all their needs; henceforth their ambition was fully satisfied. How about the brave women who stayed at home, tilled the fields, and in many cases made the living for themselves and the children? Did this just "equal rights, special privileges to none" Government pension them? Never, except through the men. When the man died and could no longer use it, to get drunk and abuse his wife, it was occasionally passed on to his wife, if she survived him, as a priceless legacy. Is this all this equal rights Government has done for the men? No, it has builded palatial homes for them, where they are housed, fed and clothed, doctored and well cared for, and are even buried with honors of war when the dread summons calls them hence. The nation has large numbers of such homes. There are but few national homes for the women of the civil war, or the Spanish-American war—for the women who made it possible for many of the national defenders to go to the front, or for any of the nurses who went with them and cared for the sick and ministered to the dying. It is only recently when the veterans are nearly all dead, and the wives are nearly all ready to die, that the Government is meting out a very tardy widow's mite of justice by erecting homes for the ladies of the relief corps. The most pitiful sight in all the southland today is not the soldiers' home, a splendid series of fine mansions surrounded by a magnificent park and beautiful gardens, but the town of Sawtelle beside it, where many of the wives and daughters of the old, well-cared for veterans eke out a miserable existence in old shacks and tumble-down structures, taking in washing for a living, or running blind pigs and otherwise ministering to the animal desires of some of the male pigs, some of these same old favored wards of the nation. Protect the women—No. The women don't count, they are not people having equal rights. They are only servants, slaves, allowed to live for man's delectation. Have they any rights? Certainly not any equal rights. Certainly no special privileges. Why not let us be truthful and rewrite those old doctrines, handed down by our wise or otherwise fathers to their wise (?) sons of this age? Why not say this is a Government of the men, for the men, and by the men?

Why not rewrite that immortal Declaration of Independence and let it read what it is falsely construed to mean. All men, not women, are created free and equal and are possessed of certain inalienable rights, among which are life, liberty, and the pursuit of happiness, with the special privilege of making inferiors and even white slaves of women, and that to secure these rights governments are instituted among men, not women, deriving their just powers from the consent, not of the women, but of the men who govern, not always themselves but the women. Section 21 of Article I of the present Constitution of the State of California reads, "No special privileges or immunities shall ever be granted which may not be altered, revoked or repealed by the Legislature. Nor shall any citizen or class of citizens be granted privileges or immunities, which upon the same terms, shall not be granted to all citizens." Here is the power given to the Legislature to enact laws for woman suffrage. It is the duty of the Legislature to enact such a law. Why not amend the last clause and make it read, what it is construed to mean, "Nor shall any male citizens or class of male citizens be granted privileges or immunities, which upon the same terms shall not be granted to all male citizens." Why not be honest about it and amend the Constitution to read "Women who have been governed by us great men are not citizens, only women who are not allowed to vote for fear they might disfranchise some native born Japanese, Chinese, and a sprinkling of other heathen, whom we lords of creation permit to help govern our women, whom we males unjustly deprive of the rights of liberty, equality and justice, and instead *freely give away their rights to the aforesaid heathen*

It is recorded in the holy writ that the Son of Man came not to be ministered unto, but to minister. There is no higher ideal than service, there is no higher type of service than that rendered by women. Mother care, mother love, is like the abounding love of God that passeth understanding. You can't measure it. Its quality is pure, because unselfish. From the cradle to the grave its measure is full, free, unstinted. Man would be a monster without it, and since love is the only loan for love, life can never be complete nor perfect without its mutual interchange between husband and wife. Hence the highest type of a man will truly gratify his wife by according to her every privilege which he demands for himself. Every American male citizen should consider it beneath his dignity to wed with an inferior, a female citizen who is beneath him in point of privilege. It is only a generation ago that women were admitted on an equal footing in the great colleges. Then nearly all of the teachers were males, now the great majority are females; then but few occupations were open to them; now they are filling nearly every branch of industry and usefulness. Among the great artists, the great musicians, there are at least as many women as men. Not only is this so, but in every walk and occupation of life they have made good. Man has yielded his self assumed rights grudgingly, but step by step woman has climbed the ladder of success until to-day all fair-minded, just men, believing in equal rights and special privileges to none, freely accord her the privilege and the right to stand alongside of man as his equal, because by her mental keenness, her right thinking and her never-ending perseverance, she has become necessary to the State. If you will read the story of "The Beast and the Jungle," written by that prince of all good fellows, little Judge Ben Lindsay, the father of the juvenile court movement, and his recent work in doing away with graft in Denver, you will find that it was the women voters of Colorado that made his great success possible. The juvenile court movement is being adopted all over the nation, and the unfortunate children living in hovels and haunts of crime are being taken from their evil surroundings and furnished good homes and an education, and the good women of the country are opening their purses, their hearts and their homes to the unfortunates, and since the entrenched interests will never surrender any stronghold of vice that promises easy gains, the women of the country must be reinforced with the ballot, in order to break the stronghold of greed, as they have already done in Colorado.

Woman not only wants the ballot, but it is her right; and if her right, then the eternal decrees of justice can not be met by us until we give it to her. In the great work of redeeming the State from misrule and political corruption, we want her to stand behind the juvenile court, not only with her voice but with her vote. We want her voice and vote to stand for her daughter and every other daughter and against the white slave dealer in white slave traffic and other prostitutions of women by the human monsters of men, until a stainless flag shall wave, not only over every foot of American soil, but over a clean womanhood, fostered and protected by men too honorable to let her occupy any position not absolutely equal to their own.

It is true that only ignoble minds can be content with indirect action in the political field, with power at second instead of at first hand, and with influence, only; instead of some active part of that larger control which implies not only influence but power to do good. A few women may not desire to vote. What of it? If you deny any woman the right of self-government you are doing an irreparable wrong.

"Right is might, and right the day must win;
To doubt would be disloyalty, to falter would be sin."

Women are physically weaker than men. Not so mentally, and the powers of endurance of the female sex are proportionately greater than that of the male. They average up well. In the purely mental qualities they are the peers of men, while in spiritual development, loyalty, justice, love and truth they far exceed man. When justice shall be exalted, when capital and labor shall join hands; then the lion of commerce and the lamb of peace shall lie down together, and a little child (the angel of justice), shall lead them. Then the great fight going on now in Congress, for the physical valuation of the service corporations to forever stop the watering of stock, the creating of fictitious values, and the looting of the people by collecting enormous interests and profits on those fictitious values will be won. It has been well said that coming events cast their shadows before.

Did it ever occur to you that when the big American desired to create a type or statue of the finest thing in all the world that he invariably selected for his model a woman? The Goddess of Liberty enlightening the world, Columbia holding aloft a lighted torch typifying enlightenment. Californians, did you ever consider the sign manual and symbol of the great seal of your Golden State? Its two prominent figures are its great bear, the grizzly of the mountains, the king of beasts on the American continent, the one great symbol of power, standing guard beside the beautiful California, symbol of love, the handsomest woman of all the west, queen of a new empire, symbol also of the reign of universal peace and plenty, when the great bear has conquered every form of wrong and oppression, and has resigned to woman her rightful supremacy as the great educator, the great harmonizer, the only fitting symbol of the great love principle, then alone will be ushered in the dawn of universal peace. The great battle being waged in California to-day shows that the California bear is awake, fighting a great battle to forever drive out and

destroy the political power of the great corporations. The great battle that is on to-day in Washington, as in California, is to fix the physical valuation of the great interests and bring under the law of all the people the great corporations and forever eliminate from national politics the depredations of predatory wealth. The next great and final battle will be for the elimination of stock gambling, of gambling in the futures of cotton and of wheat; of steel and of railroads, and every great source of wealth and power. Behind these great sources of power are entrenched the great banking interests of Wall street, in New York City; rioting in the dishonest accumulation of their millions and billions of unearned capital. A Patton, by means of cornering the wheat or the cotton, advances the price, after it has left the farmers' hands, to fabulous figures. By the time it reaches the consumer, the toiling millions, we wonder at the high prices of foodstuffs and fabrics. No wonder the small capitalist and the laborer is caught between the nether millstones of greed and avarice, and crushed. In the mean time he puts up his fine securities, the earnings of a lifetime, to the bankers of Wall street, and pays from one to forty per cent for money, in order to save himself from ruin during a financial panic brought about solely by this system of stock gambling, dignified under the name of high finance. Here, and here alone, start all of the financial panics the nation has lately known. The only way to stop national panics is to stop the stock gambling of predatory wealth. Is it not about time that we began thinking of sending over to the National Congress our two great live California bears—Johnson and Wallace—to break the necks of the bulls in Wall street and thus give the nation commercial peace. And then, when our California woman who fills about four fifths of all the educational positions in the State and nation stands by the side of her proper protector as in the great seal of State, enfranchised, ennobled by the big men of California, then and only then when justice, equality, honor and fraternity shall have become the emblems of power, will be fulfilled the prophecy that every mountain (source of power) shall be brought low (under the rule of law); and every valley (labor's fruitful source of wealth) shall be exalted, then and only then, when the lion of commerce shall lie down with labor, and a little child (the angel of peace), shall lead them, when a stainless flag once more floats over a free, a loyal people; when the nations shall have beaten their swords into plowshares, and their spears into pruning hooks: then and only then, when the proper balance of life has been reached, when the woman shall stand beside the man as his proper counselor, will be ushered in the dawn of a great millennium wrought out by the fairness, the honor, the justice, and the loyalty of a redeemed, a liberty-loving, a perfected people. Then, and only then, shall we have a true republic, a government in deed and in truth of the people, by the people and for, not a scant majority, but for all of the people. Then let the matchless State of California erect on the dome of the Capitol a great statue of liberty, beautiful California, symbol of peace and plenty, guarded by the great bear which has conquered a lasting peace in the world's great battle for liberty and justice.

EXPLANATION OF VOTE.

Mr Slater asked for and was granted unanimous consent to have the following explanation of vote printed in the Journal:

I intimated to members of the committee if a fair amendment was granted that would enable wineries and breweries to handle their products in "dry" territory I would support the Wyllie bill. An amendment eliminating in a measure the drastic provisions of the original bill having been adopted, I feel it incumbent upon me to fulfill my word. I believe firmly that the provisions of the bill are still too drastic and should be amended and my amendment, asking for a township unit, and the regulation and limiting of saloons should in all fairness have prevailed.

ON STATE HOSPITALS AND ASYLUMS.

ASSEMBLY CHAMBER, SACRAMENTO, February 4, 1911

MR. SPEAKER: Your Committee on State Hospitals and Asylums, which was heretofore granted leave of absence to visit certain of the State institutions under their jurisdiction, beg leave to report that on the 27th day of January, 1911, your committee, consisting of Messrs. W. D. L. Held, C. G. H. Bennink, D. R. Hayes, D. M. Denegri, D. Rimbinger, T. J. Feeley, E. H. McGowen, and F. N. Rodgers divided itself into subcommittees consisting of three members each and visited the said state institutions and now beg to report the findings as follows.

The institution at Napa is in fair condition, managed economically and as well as could be done with the material at hand, much improvement is needed, the committee reported favorably only on such appropriations as seemed most necessary. Some of the buildings have not yet been repaired since the earthquake and appropriations should be made to repair the same. A scarcity of water seems to demand an appropriation to build a new dam for the necessary supply of the institution. There are now in the institution over 1,900 patients, being 300 more than the capacity of the buildings, which necessitates placing patients in the corridors and attics. We recommend certain new buildings to relieve the congested conditions.

The institution at Eldridge is also very crowded, and the management is making every endeavor to accommodate the number of patients on hand. We found at this institution a long waiting list of patients, who are denied admittance because of the lack of room. We advise the furnishing of new buildings, an increase in the water supply, and other necessary expenditures.

At Ukiah the management proved to the committee the necessity of repairs to certain buildings and the furnishing of finished structures. The sanitary conditions in the Ukiah hospital are very poor, the plumbing having never been replaced and scarcely repaired in eighteen years, and the committee is of the opinion that these and other repairs to the old buildings are absolutely necessary. The crowded condition of the institution would call for more new buildings than are asked for at this time.

The committee journeying to the south visited the State Hospital at Patton and reported the management of the institution putting forth every effort to accommodate an overcrowded institution, with funds inadequate to the call, and they deem it necessary that certain bills calling for appropriations for buildings and furnishing be allowed. The cold storage plant especially is very small, unsightly, and inadequate for the demands made upon it. This committee after making careful note of the conditions existing at Patton journeyed to San Jose, where they met with certain committeemen from the north for the inspection of the institution at Agnews. This institution was entirely destroyed by the earthquake, and many of the buildings have not yet been replated. There are hundreds of patients in wooden shell structures which are unfavorable to the patients and dangerous to their health. The new buildings are beautiful in architecture and of solid construction, and a credit to the State, but under the existing financial conditions the committee is of the opinion that not all of the appropriations for new buildings can be allowed, but only such as will accommodate the patients living in the barracks at the present time.

After the inspection at Agnews the committee returned to Sacramento on the first day of February, 1911, having been gone six days for the purpose of inspecting these institutions.

None of the committee visited Stockton because of the fact that the railroad lines between Stockton and Sacramento were washed out by the recent floods, thereby rendering it impossible for the committee to make the trip and return to Sacramento in the time allotted to them.

The management of the various institutions commented on the small number of members composing the committee, and paid high tribute to the manner in which they made their investigations, for all of which the committee are duly thankful.

Respectfully submitted.

McGOWEN, Chairman.
